

NRA First Steps Shotgun Course

For times, location and registration, check our [Class Schedule](#).

Course Cost Per Person: \$125.00

Course Description

This introductory course is about 4 hours long.

A popular alternative to the Basic Shotgun course is FIRST Steps. New firearm owners are encouraged to take the "first step" of obtaining training and this program is designed to provide a hands-on introduction to the safe handling and proper operation of your New Shotgun.

Since this orientation is model-specific, and teaches only the most basic shooting skills, it is not a complete "course" in the traditional sense of the word, however, it does provide a thorough introduction to:

- Firearm safety
- Handling your firearm
- Shooting skills

This course will include some initial practice with your firearm under the supervision of a qualified instructor.
