KRYLON GALLERY SERIES

THE ULTIMATE IN ART PROTECTION.
FOR AN ARTIST'S FINEST WORK, WE'VE CREATED OURS.

The new Krylon® Gallery Series™ is sure to become the artist's choice for protecting, preserving and beautifying works of art. Formulated with an exclusive UV absorber and stabilizer additive, all Gallery Series products include a powerful combination of Hindered Amine Light Stabilizer (HALS) and UV Absorber (UVA) for the maximum UV protection. Gallery Series products are designed to provide advanced protection against smudging, smearing, fading, yellowing, cracking, moisture damage and more.

Gallery Series artist sprays are available in a variety of formulations to ensure compatibility with not only the artist's materials and technique, but also his or her overall vision. Various products can be used during the creative process, or to provide a final, invisible layer of protection. If the artist is looking to further enhance the work, a number of sheen options are available. And, like all Krylon products, Gallery Series sprays are easy to apply and dry quickly.

All of the Gallery Series spray cans are now available to order from the warehouse. If you require more information regarding specific Gallery cans please contact the office for details. Please see Back to School order form for order details and pricing.

GOLDEN Color Mixing Set - Modern Theory

The New Modern Theory Color Mixing Set from GOLDEN provides the ideal starting place as you begin to assemble your aesthetic approach to colors and painting. Based on a selection of Organic (Modern) pigments, this set allows you to mix a wide range of remarkably clean and intense color blends that retain their brilliance even in the thinnest wash or glaze. This set provides one of the most complete resources to begin to understand pigments and their mixtures.

The eight color Modern Theory Color Mixing Set contains primarily organic colors that provide a warm and cool selection from each hue space, plus Phthalo Green and Titanium White.

Also included in the set is the Modern Color Mixing Guide, with proportion suggestions to walk you through color exploration and the development of color mixtures.

This valuable resource illustrates the wide range of modern mixtures that can be achieved using a limited palette of just eight colors.

The Ideal Solvent for Thinning GOLDEN MSA Varnishes

Do you find yourself having to search for a compatible solvent for GOLDEN MSA Varnishes? Well, with GOLDEN MSA Solvent, things just got a whole lot easier!

As other solvent manufacturers change their formulas to comply with legislative restrictions it's becoming harder to locate a compatible solvent for our MSA Varnishes. With GOLDEN MSA Solvent, you now have access to a competitively priced solvent designed especially for use with our MSA Varnishes. Travelling from store to store to find what you need is no longer necessary. MSA Solvent can be purchased right in the art store on the same shelves as the rest of our materials. And don't forget, MSA Solvent can also be used for tool and paintbrush cleanup as well as for removal of MSA Varnish at a later time for restoration purposes if necessary.

GOLDEN MSA Varnishes can be used over a wide variety of paints, including acrylic, oil, alkyd, egg tempera, watercolour, and casein. Suitable for interior or exterior use MSA Varnishes provide protection against the harmful effects of ultraviolet radiation, as well as reduce the susceptibility of the painting due to dust, dirt and marring.

MSA Solvent Available in:

* 8oz Sugg. List - \$12.15

* 16oz Sugg. List - \$18.55

* 32oz Sugg. List - \$26.60

Acrylic Glazing Liquid Gloss / Satin

Golden has announced that they have discontinued both Acrylic Glazing Liquid Gloss and Satin in the 128oz container. We are unable to order this product any longer, please make note of these changes to your Heinz Jordan Catalogue Pages. All other sizes are still available

Transitioning a few Brushes

Our manufacturer has asked us to streamline a few brushes that are identical in hairs just different in handle colour. With every nation feeling the economic crunch we have complied with their requests.

Moving forward the following brushes will be converted to the following:

Series 625 mauve handled angle will no longer be available but all sizes will be available in the blue handled 725 series

Series 670 mauve handled rounds will no longer be available but all sizes will be available in the blue handled 700 series.

Series 690 mauve handled liner will no longer be available but all sizes will be available in the blue handled 900 series.

Thank you for your cooperation in this matter. Please note: We still have current stock on hand, this transition will be complete when we sell out of all of our remaining stock.
