

### Product Description:

**RT7** is a blend of surfactants designed for degreasing all kitchen surfaces including micro-waves, cookers, hoods, counters, working surfaces, and walls inn hotel rooms. It delivers superior degreasing which is particularly effective at removing ingrained grease and grime from surfaces where extra chemical energy is required. It is non-corrosive and rinses easily with no residues, leaving equipment and stainless-steel surfaces shiny after wipe-drying.

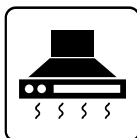

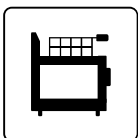

### Typical Uses

Use to clean all surfaces in a kitchen.

### How to use:

**RT7** is a ready-to-use product.

Spray from top of surface to be cleaned. Allow for 20-30 seconds while **RT7** chemically soften soils. Use brush or pad to agitate tough stains. Rinse with clean water. For better shining result, dry stainless steel surfaces with a towel after rinsing.

Refer to SDS before using the product.

**Hotel Edition**
