

Tournament Used Table Information

- Coin operated tournament tables are discounted off of new coin op prices
 - Our tournament used tables are new from the factory and used one time in a carefully controlled environment, most usually a hotel ballroom setting. They come *only* from tournaments we sponsor, where our experienced staff properly un-box and re-box the tables. We *do not* purchase them from other tournaments due to poor and improper handling issues. The balls and coin mechs are not used.
 - Cosmetics: We take extra steps to protect the laminate and “chrome” placards, however *cosmetic* issues can occur - *these are tournament used tables*. We take extra measures to care for the placards, but due to the delicate nature of the finish, they can be scratched. Laminate issues are rare. We do not replace laminate or placards, and neither is covered under warranty. If you require new, unblemished placards, there will be a \$50 charge and this request must be made at the time of purchase. When choosing this option, your table placards will be inspected prior to shipment and new placards will be placed in the table for your installation. After purchase, the placards can be purchased for retail pricing through our web site. If this is not satisfactory, a new table can be purchased. All new table issues are resolved through the warranty process as stated in the Valley Dynamo warranty.
