

Srinika Narayan MS, LAc

I have been a licensed acupuncturist and practitioner of Integrative Chinese Medicine for over 15 years at offices in both SF and Albany.

Having established my own practice in 2002, I sought out additional training at Ulan Nutritional Systems to expand my healing tool-kit.

In 2011, I integrated a specific form of muscle testing for Nutritional Analysis. I have used muscle testing to successfully address many forms of chronic and stubborn conditions as I treat my clients.
