

INDIANA COATING SPECIALISTS JOINS JACKSON LEE 2020 RACING PROGRAM

FOR IMMEDIATE RELEASE: (Franklin, IN) December 10, 2019 - Indiana Coating Specialists, representing Tnemec Company, Inc. in the state of Indiana, has entered into a major associate partnership with Jackson Lee for a 2020 “Road to Indy” racing program.

Lee, 17, Avon, IN, will be entering his second season of formula car racing in 2020. After winning a scholarship in the 2018 Cooper Tires Karting Shootout, Lee competed in the 2019 Lucas Oil Formula Car Series, leading the championship multiple times and ultimately finishing 4th in a tight battle with 2 wins (Mid Ohio and VIR), 6 podiums and 6 races led.

Lee also entered a weekend in the FRP F1600 Championship for Rice Race Prep, which included a pole and 2nd and 4th place results at Summit Point Raceway. Lee was also a 2019 Team USA Scholarship nominee.

Indiana Coating Specialists is the exclusive sales agency for Tnemec industrial and architectural protective coatings throughout Indiana.

“I can’t thank Mike Land and Indiana Coating Specialists enough for coming on board to support our 2020 plans,” stated Lee. “We are trying to finalize the budget to compete for the FRP F1600 Championship and with Mike’s partnership, we are getting close to being able to commit to a team. He’s also been a great help in introducing us to more potential partners. We’re also hoping to do some USF2000 testing in 2020 to prepare for 2021.”

“Our company believes in motorsports to grow our business and our brand,” said Mike Land, owner of Indiana Coating Specialists.

“After researching, watching and meeting Jackson Lee, I believe he can advance through the Road to Indy with the proper support. We plan on this being a long-term partnership. I’m also hoping other partners will join me in supporting an Indiana-based driver focused on reaching IndyCar and the Indianapolis 500!”

About Indiana Coating Specialists

Formerly J.D. Petro & Associates, Indiana Coating Specialists and Tnemec have been setting the standard for industrial and architectural protective coatings throughout Indiana since 1979. The agency’s staff has built a reputation on providing their customers with the technical expertise and innovative high-performance coatings technology needed for success. The company helped pioneer the use of a zinc-rich primer for the interior and

exterior of potable water tanks, and is recognized as a provider of specially formulated high-performance coatings for wastewater and fume environments as well as resinous flooring. Specifiers and contractors rely on the agency's team of specialists for application-specific coating systems, dependable customer service and outstanding problem-solving consultation from project inception to completion. The agency team served as coating consultant for such prestigious projects as the Indianapolis Airport Midfield Terminal, the Indiana University Natatorium, Indiana University Assembly Hall, Conseco Fieldhouse and Purdue University Mollenkopf Football Practice Field to name a few. Indiana Coating Specialists provides protective coatings and unparalleled industry expertise in Indiana, including the cities of Indianapolis, Fort Wayne and Evansville. Whether there is a need for protective coatings for water tanks, wastewater treatment plants, or the floor of a manufacturing plant, Indiana Coating Specialists will offer a solution.
