Letter of Reference

The summer of 2016 Hamburg Area School District had the Front Entrance of the District's Middle School renovated as well as the Office reconfigured and a new Gymnasium floor and wall padding installed.

Balton Construction Inc. was the General Contractor selected for this project. The time frame to complete this project was very short. Construction started in mid-June and had to be completed by the end of August.

Balton Construction's goal from the start was to get the project completed on time, on budget and ending up with a result we would be proud of. They succeeded with their goal.

Balton Construction worked together with all of their sub-contractors and made sure any challenges that arose were handled in a professional and timely manner. Their representatives on this project were both knowledgeable and a pleasure to work with.

I am pleased and have no reservation recommending Balton Construction Inc.

Sincerely yours,

A handwritten signature in black ink that reads "Mark Meinhart".
