

CRIMSON
AND
CLOVER

ABOUT

Crimson and Clover Studio is the funny AF stationary and gift company founded by sex and dating writer Rachel Khona. A fizzy mix of heartfelt love and sharp sass, Rachel's deadpan cards and gifts are now carried in boutiques and chains around the world.

It all started with sassy sticky notes Rachel and her then-boyfriend would leave for each other. She realized she had a knack for sassy zingers and giggle-inducing puns, often outdoing then-boyfriend with her own sticky notes.

But when she came home one day to find she was unceremoniously dumped via sticky note (accompanied by her belongings left at her boyfriend's apartment), she decided to turn those lemons into lemonade.

Rachel had stockpiled a collection of sassy phrases in her phone which she turned into greeting cards giving her the last laugh.

Crimson and Clover Studio is now sold in stores around the world and has been featured in Cosmopolitan, BuzzFeed, Time Out and Instagram influencer's account Fuck Jerry.
