

Traffic Signal Construction/Maintenance Technicians

Denver Metro and Colorado Statewide Locations

Sturgeon Electric Company Inc. is seeking qualified Journeyman Traffic Signal Technicians (IMSA level 2+, CDL, with 3+ years of documented experience) for employment in Traffic Signal, Highway Lighting, and ITS construction projects in the Denver metro / Colorado Statewide area. Denver has a comfortable dry climate with over 300 days of sunshine per year.

Journeyman wage scale is \$31.41 per hour on the paycheck plus employer paid fringe benefits, to include family medical, dental, optical, health coverage, plus **15% employer paid** additional compensation into pension and annuity plans.

Apprenticeship opportunities are available on-line through MSLCAT.org. **Apprentice wages start at \$20.42 per hour plus employer paid fringe benefits.** The apprenticeship program is structured to include classroom education, on the job training, IMSA certifications, and scheduled pay raises at 6 month intervals to Journeyman Traffic Signal Technician status over a 3 year period.

We are also hiring Equipment Operators, Project Managers, and Project Engineers
