## Roping Cattle Special Market Report

As of: March 16, 2019

**Total Cattle:** 1717 With 1600 Fresh and 117 being Roped Out

It was a pretty tough market this past weekend. We had a super nice set of cattle for this sale. The demand on the 400 - 425 lb steers & heifers was very strong but the supply was short. We had some weaned and vaccinated that brought \$425 - \$475. With the way the ropings are set up currently, the producers really want these big & stout so they will last. We had a lot of cattle with enough horn to rope and age but we're just a whisker to light weighing that 300 -350 lbs. Those cattle would bring from \$375 to \$425. It's a very tricky industry right now & the way it sounds more and more beef bulls are being put on the Corriente and Longhorn cows daily. Only time will tell what's in store for us in the future. Our next Roper Potential sale will be in the first part of May. It will be limited to 1000 hd.
