2016-17 Rating List as of 10/21/17

Please note: This is not related to the "USTRC" rating in any way.

This numbering system is used for MRA purpose only.

Please be advised, that you are able to protest anyone's rating at any time. Please contact a director or the office with your comments.

These ratings can be changed at any time throughout the year.

#### Michigan Ropers' Association Rating Guidelines:

You should only judge ropers that you have seen rope at jackpots recently. Rodeos and practice pen should not be used as strongly in determining the roper's rating - because we are roping several rounds and under some pressure. The last round of a roping should be the most important. If there is a question on a Header, leave them lower; on a Heeler, move them up - they will hurt a roping more than a wrongly numbered header. Age and sex should play a small part in your decision.

- 1 A new roper who is learning. Also includes ropers who are inexperienced roping this particular end. (l.e. a heeler who does not head, a calf roper who does not team rope)
- 2 A roper who is now riding better and swings their rope more aggressively. Header: about half their catches will be neck catches; they are still inconsistent in handling of cattle. Heeler: Catching their steers on a more regular basis; still rope most of the steers by one foot. Consideration is taken into account for what part of the arena they catch at.
- 3 Rides well and is putting runs together. Header will rope 5-7 steers out of 10; Heeler will rope 4-7 out of 10, catching over half by

two feet. Roper is positioned correctly most of the time. Roper will start to stand out at ropings but will still not dominate them. They will be in the last round of the ropings most of the time.

- 4 Headers: catch about the same number of steers as #3 (5-7 out of 10) but will catch most of them by the horns, rides the barrier well and handles cattle well. Heelers: rope more steers by two feet than the #3. These ropers will be in the last round of the ropings and also do well in lower level rodeos.
- 5 Headers: catch 7-9 out of 10 and will rope almost all by two handle their cattle well. They ride barriers extremely well and will always be in the last round of the ropings. Heelers: catch approx.
   7-9 out of 10 of their steers by two feet. These ropers will do well at the Pro. Rodeos.
- 6 Headers: Able to control the speed of the run & handle cattl Will rope most steers in the upper 1/3 of the arena. Ride the barrier extremely well. Very consistent. Heeler: Catch most of their cattle by two feet. Usually in the right position to rope steers on the 3rd or 4th jump. Will most always be in the last round of the roping.
- 7 Header: Rides the barrier extremely well and able to reach and rope steers consistently. Handle both horse & steer well and able to make speed adjustments to the run as necessary.

  Heeler: Consistently in the correct position to rope the steer on the 2nd or 3rd jump. Has the ability to take time out of the run by his/her rope and horse handling skills.

#### Rule Proposal #1 Add:

#### **Breakaway Roping**

- 1. Contastants will be allowed to use only one (1) loop. No loops are to be rebuilt. If rope is dropped it will be considered a no time.
- 2. The arena gate will remain open during each contest run. When the calf's nose passes the plain to the back gate, the contestant will be flagged out.
- 3. Rope will be tied to the saddle horn with braided nylon string. A visible cloth or flag must be attached to the rope within 6 inches of the saddle horn so that the judges can tell when the rope breaks from the horn.
- 4. The calf must break the rope away from the horn. The rope must be tied to the horn in such a manner as to allow the rope to be released from the horn when the calf hits the end of the rope. Rope must be tied to the horn with a braided nylon string and may not run through the bridle, tie down, neck rope or any other device. Rope must be released from contestant's hand to be a legal catch. Contestant will be disqualified if they remove the rope from the saddle horn.
- 5. Qualified catch will be defined as bell collar: loop must pass over the animal's whole head with no extremities. Extremities being legs, tail or figure-eighted tail.
- 6. Animal belongs to contestant when they call for them, except when barrier hits rope of contestant, timer misses time, or in the sole opinion of the line judge, the gateman fouls the contestant by not releasing the animal when called for by the contestant, the contestant will be awarded a rerun if they declare them self immediately. If the line judge does not feel the contestant was fouled, a no-time will be given to the contestant.
- 7. There will be a 30 second time limit not including penalties.
- 8. The flag judge should be positioned in the corner of the arena opposite the end of the roping box. If the arena is very large, it is permissible to be positioned as far as one fourth of the length of the arena away from the roping box. Flagger to be position on the side of the breakaway flag, this means switching sides for left handed ropers.
- 9. It is the judges' call to rule a catch legal or illegal if rope changes position after it initially breaks free
- 10. Any rules not covered by the above rules shall be assumed by the Tie Down Roping rules.

#### Rule Proposal #2:

- Change the current division system from a 3 division system back to a 4 division system as follows:
- 1. Open:
  - a. Roper can be rated any number.
  - b. Both contestants pay an entry fee.
