## Introduction to - Phil Rogers A Natural Horseman

*Phil Rogers Horsemanship was a dream of mine since I was a kid in high school. At the time, I really didn't have a well thought out career path, but i knew it would be with people and horses.*

*After 10 years of Rodeos all over the country I decided to do what I had always dreamed of doing, work with people and horses. My 1st clinic was held in 2001 at my farm in Cashiers, NC. Since then I have put on over 1000 clinics and growing each year around the United States all with one purpose in mind.*

***“Getting people to see the world  
Through the eyes of their horses eyes”***

*It would be my pleasure to work with you in helping people and horses come together in whatever way I can. The goal is simply to help you and your horse understand each other.*

*Thank you for your time,  
Phil Rogers*

## ABOUT - *Phil Rogers Natural Horsemanship*

*Phil is a well respected natural horseman. "Horses live in harmony with mother nature and know their place in the herd, I can teach you how to be the leader or your herd and command the respect or your horse".*

*Phil started his method of teaching in 1994 after studying the skills of natural horsemanship under respected horsemen such as Ray Hunt and Tom Dorrance. He conducted his first public clinic in 2001 and along with his wife Kim they continue to provide their combined knowledge and experience to help people with their horses today.*

*Using ground work and working under the saddle using best practices, we can safely get you and your horse to overcome any challenge, and get back to working and riding in harmony together.*

*Partnership Strategies*

*Ground Work*

# Thank You!

*I would like to say thank you for reading about Phil Rogers Horsemanship.*

*I have had the opportunity to meet some of the worlds best horsemen and go to their training centers. I've seen how horsemanship programs work and how the people who attend got so lost in the crowd.*

*They didn't even get to meet the horsemen that was working with them. And were lucky if they even met him at all, one to one.*

*This got me thinking about how to do my clinics so that this does not happen at my horsemanship center.*

*I think I really have something that is good for the horse and the people that works.*

*The work i do will be done by me, not one of my trainers or helpers. I am hands on and available to all the people the entire time.*

*What i do is unique and has everything to do with getting to know you with your horse while helping you become successful with your horse*

*The Phil Rogers Horsemanship program can give equine enthusiasts a top flight platform and the best of me directly helping them.*

A silhouette of a cowboy wearing a wide-brimmed hat, riding a horse through a misty field. The scene is bathed in a warm, golden light, likely from a low sun, creating a hazy atmosphere. The cowboy and horse are positioned in the lower right quadrant of the frame. The background shows a line of trees and a misty horizon.
