Recipient**

Scholarship: \$2,500 Renewable 2020
sponsored by Huntington Ingalls
Industries, Inc

College: University of California - Berkeley

Major: Chemical Engineering

2021-2022: Sophomore

Academic and Extracurricular Highlights:

- 3.28 College GPA

“My first year of college has been an interesting one with its own challenges due to online learning. Although my classes and labs are now digital, the transition has been relatively smooth with plenty of opportunities to learn. I am looking forward to eventually attend campus in-person and experience the culture in person. I have joined the American Red Cross group in the mean time and overall my first year has been a pleasant learning experience.” **Justin**
