

YARNS & COLORS

Heavy snow in the
deep winter of January

Under the thick snow,
the vitality is ready to go,
deeply shaking us.

Our love to environment
Always motivates
Design actions

Overture

一月深冬里的大雪 层层细致 包覆大地
厚雪下 生命力的蓄势待发 深深撼动着我们

SNOWY是一场纱线技术的宁静革命
在柔软亲肤的质地中融入弹性纤维
突破我们对布料弹性的想象与材质季节的限制

谢谢创作过程中 这场美丽的大雪
一如YARNS & COLORS的初衷
美学与技术 创意与实践

唯有厚积 方能薄发
让每一件作品 兼柔并蓄 超乎想象

SNOWY has steadily revolutionized yarn technology
Through blending elastic fibers, into a soft, skin-friendly texture
And expending past the limitations of fabric elasticity and
seasonally restricting material.

Honoring our journey of 30 years, with our inspiration,
SNOWY allows YARNS & COLORS to uphold its original ideals-
Aesthetic and Technology, Creativity and Practice

was inspired by the love to our mother earth.
It is a journey of the inevitable coexistence of textiles and the environment

Product introduction

Our Promise and Design Motivation

我们对产品的承诺与设计初衷

THE GREEN AGE OF THE TEXTILE INDUSTRY

After 30 years of deep cultivation of textiles, we believe that environmental sustainability is definitely the focus of the textile industry. From the purchase of raw materials, the process to the finalization of finished products, how to be environmentally friendly as well as user-friendly has always been the core of YARNS & COLORS' efforts.

深耕纺织30年，我们认为环境永续绝对是纺织业的时代课题。从原物料选购，制程到产出成品，如何做到环境友善，使用者友善，一直都是YARNS & COLORS努力的核心。

EcoVero™

TAKE FROM AND GIVE BACK TO NATURE

取之自然 回馈自然

Our partner

To create an ecologically balanced and sustainable production are the core concepts in our environmental philosophy.

Derived from certified renewable wood sources, viscose in SNOWY is using an eco-responsible production process by meeting high environmental standards. LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, thus contributing to a cleaner environment. Viscose fibers are derived from sustainable wood and pulp, which comes from certified, controlled sources like FSC® (C041246) or Forest Certification Scheme Accreditation Program PEFC™. LENZING™ ECOVERO™ fibers have been certified with the EU Ecolabel as meeting high environmental standards from raw material extraction, all the way to production, distribution and disposal.

YARNS&COLORS与兰精的环保理念 核心的目的及产生的社会责任，就是让生态保持平衡及永续的发展。

SNOWY中的Viscose采用环保高标准的生态工艺生产，LENZING™ ECOVERO™专为持续发展的生活设计，取材于经认证的可再生木源，有助于创造更洁净的环境。所有LENZING™ 纤维均符合森林管理委员会FSC® (C041246) 或森林认证体系认可计划PEFC™标准。通过欧盟认证获得生态环保标签(Eco Label)，印证产品达到严格的环保标准，从原材料选取到生产、分销和废气处理。

/ ADVANTAGE /

Using certified and controlled wood sources for pulp production from renewable wood sources as raw materials, this reduces pollutant emission and water pollution by up to 50% compared to conventional viscose fibers.

The SNOWY Collection is incredibly versatile and practical: it's soft and smooth, sweat resistant, antibacterial and anti-static while still maintaining the warmth and comfort we traditionally value. The SNOWY Collection is an innovative line that enhances its own value.

/ 优点 /

比一般粘胶纤维降低多达50%的排放量和水污染，采用经过认证和把控的木源进行制造，用以可再生木源作为原材料的浆粕进行生产。SNOWY系列拥有极强的实用性，它的光滑柔软，吸湿排汗、抗紫外线、抗菌防臭、抗静电、保暖，高度满足了消费者对于服装功能，舒适的多种要求，提升了本身的价值。

>> DECOMPOSABLE

Since Viscose fiber is a natural fiber extracted from trees, it can be decomposed by natural microorganisms, effectively reducing environmental pollution.

>> COMFORT

Full of elasticity with a smooth cashmere touch, SNOWY ensures the natural comfort for sensitive skin. Through repeated washing and drying cycles, the viscose fibers will still remain soft and wrinkle-free.

>> 可降解

由于Viscose纤维是从树木中提取的天然纤维，能被自然微生物分解，有效减少污染。

>> 舒适性

充满弹性，有羊绒平滑手感，SNOWY确保敏感肌肤的自然舒适，经过反复的洗涤和干燥循环，Viscose纤维能够一直保持柔软，不易皱。

Whole garment

突破设计局限 创造时尚新视野

BREAKING THROUGH DESIGN LIMITATIONS
CREATING A NEW VISION FOR FASHION

>> 运动服饰

在高性能运动服饰上，SNOWY能够保护身体热量不被散失以及快速排出运动时所产生的汗水。天然的Viscose成分带来干爽透气，更轻更柔软，PBT (polyester) 拥有极好的弹性，可以满足人体对运动上的要求。

>> SPORTSWEAR

In our athleisure sportswear collection, SNOWY is able to protect her body from heat loss while eliminating all the sweat produced during exercise. The natural viscose makes the clothes dry, breathable, light and soft, while the PBT polyester gives excellent elasticity, satisfying any and every form of exercise.

YARNS&COLORS除了原物料，材料的突破，同时也升级现有的纱线弹力，张力与密度的稳定性。近年来也成为最新针织生产设备3D一体成型WHOLE GARMENT的最主要纱线，降低无缝生产技术的损耗问题，更好的体现一体成型对人体曲线的贴身要求与舒适。

In addition to YARNS&COLORS breakthroughs in development of our raw materials, we've also upgraded our yarn's elasticity, tension and density stability. In recent years, it has become the most valuable and resourceful yarn of the latest knitting production equipment— 3D integrated molding WHOLE GARMENT, ultimately reducing the loss of seamless production technology, and providing more comfort to the body.
