:30 To Giordano: - "...You've advised the Joint Chiefs of Staff and the Pentagon...

1:00 military agenda is interested in the potential weaponization and misuse of the brain sciences for nefarious agenda or for political, intelligence, and military uses...

about 4:25 ...idea here is to put minimal sized electrodes...to be able to read and write into the brain function...in real time...remotely...

8:40 ...front of my pen...amount of nanomaterial... could in fact affect all of you...although it may not be that the sky is falling - yet - folks, it looks like rain...bring an umbrella...what's gonna rain down... nanotechnology...from hydrosphere...every American...are infected...

Screen: '...conspiracy so monstrous that he cannot believe it exists...'

9:20 ...can we create designer brains...are they targetable after birth...are they modifiable throughout lifespan...answer to each one of these...yes...

10:00 Targeted Individual Brian Tew

11:40 ...yeah - we can do these kinds of things...Patent number 6011991 Remote Brain-Computer Interface Neural Monitoring i.e. via satellite...From the location of the individual to a remote location so that the brain activity can be computer analyzed...

12:30 ...archive enough data on each individual...to predict the behaviors and reactions...in the event of various scenarios...

14:25 ...ability to hack humans... manipulate me, enhance me, or replace me..."
