

Distance Education Specialist Centre (DESC) Course Design Manual

Table of Contents	3
Overview and the purpose of the Course Design Manual (CDM)....	5
Who can benefit by using this manual?.....	5
How to use this Course Design Manual (CDM).....	7
Good online teaching and learning within the DEPP framework	7
Online Learning Instructional Design Model	9
Step 1. Establish Course-level Outcomes	9
Do you know your audience?.....	10
Task analysis.....	11
Context analysis.....	11
Instructional System Design (ISD) and learning theories	12
Knowledge, Skills and Abilities/ Attitudes (KSA) Analysis	14
Writing course-level outcomes.....	15
Matching outcomes with assessment.....	17
Assessment options for online learning.....	18
Step 2. Design Your Course.....	19
Media choices and multimedia in online teaching and learning	20
Instructional activities and other activity options.....	21
Designing for different types of interaction.....	22
Designing for usability	24
Building a community of learners	25
Designing for learner support	25
Step 3. Develop Content for Your Course.....	26
Rapid prototyping - an iterative process	27
Project Management (PM) and course development	27
Labeling of file content	29
Some thoughts about copyright	29
Activity deliverables.....	29
Setting up forums, case studies, and small group assignments.....	32
Migrating content, activities and other deliverables to the LMS	35
Step 4. Test and Evaluate Your Course	36
5 good reasons to test now!	36
A focus on quality - The Complete Course Design Evaluation	37
Implementing a pilot test.....	37
Decision - Is the Course Going to be Effective?.....	38
Quality assurance within DEPP.....	38
From a students' perspective - The Student Usability Evaluation.....	38
Managing evaluations.....	38
Step 5. Implement the Course	39
The role of the tutor/mentor and tutor/ mentor training	39
Student orientation.....	40
Tips for sustainability	40
Conclusion	41
Resources.....	42
Books and Materials Referenced.....	44
Appendices	45
