Spectrol 20W-50 4-Cycle SN 4T JASO MA, MA2

FEATURES/BENEFITS

- *Spectrol 4-Cycle Engine Oils* are premium quality oils formulated for motorcycles using highly refined paraffinic base oils and select additives to provide special properties for the wet clutch system, high RPMs and temperatures, and metals found in these systems.
- *Spectrol Performance 4-Cycle Engine Oils* are suitable for use in applications requiring JASO MA or MA2 oils and API SN.

TYPICAL PHYSICAL PROPERTIES

20W50 JASO SN MA/MA2

Typical Results

Density @ 15.6°C	7.39 lbs/gal
Specific Gravity	0.887
Viscosity @ 40°C	158 cSt
Viscosity @ 100°C	18 cSt
Viscosity Index	130
Flash Point °C (PMCC)	225
Pour Point °C (D97)	-21
CCS Viscosity (cP)	8000
Color	3.5

ADDITIONAL INFORMATION

Please use proper handling and care that you would use with any motor oil. The test results listed are typical properties only.
