About Adopting:

We thank you for your interest in adopting and for choosing CCHS to help you find your furry companion! We have an open adoption policy and we strive to make the adoption process easy and fun! Because we strive to reduce pet over population in our community by means other than euthanasia, we have a 100% spay/neuter before adoption policy. This may mean that some animals are not available for adoption at this time. It is our policy that all animals must be spayed/neutered, vaccinated, and microchipped before any adoption is processed and finalized. If an animal you are interested in has not been vetted, we will hold the animal for you until the procedures have been completed. Once they have been completed, you will be able to adopt. Please visit with a staff member if you have any questions and thanks again for making adoption your option!
