## #MentorNSBA site visit brings national focus to Mentor

Mentor Public Schools drew attention from hundreds of school board members and educators from across the country in April as one of the national site visits of the National School Boards Association.

Mentor showcased its blended learning initiatives at several schools, including Ridge Middle School and the Catalyst Research and Development Classroom and Fairfax Elementary. The district highlighted its CARES autism program, which drew rave reviews from visitors.

At Mentor High School, visitors got to the Hub, a next generation media center, and viewed the progress being made to complete the Paradigm Professional Development Center funded by the Straight A Fund grant.

Below are some of the Tweets that visitors and staff offered at #MentorNSBA during the event.
