

Great beers list (updated July 2016)

Beer	Description	Availability
Naughty Otter Lager 5.2% ABV	Our biggest seller. Naughty Otter Lager is fun, refreshing, crisp -- our premium lager for any time of year. Made with organic barley from the US midwest and Czech hops, Naughty Otter is about relaxing, forgetting the stress of work, recovering from cutting the grass, or just unwinding. This beer is partially filtered so it has a craft beer look and feel, and an IBU of 24 which means it is hoppier than most domestic mainstream beers but it is still accessible to the wider public. Available in LCBOs across Ontario.	Brewery Bars and restos in Kingston, Gananoque and Brockville LCBO / Beer Store
Thursty Pike Pilsner 4% ABV	Yes that is Thursty with a "u", named after our founder's great-grandfather, Thurston Pike Davis. Thursty Pike is our full-flavoured light beer, at 4% ABV. Easy-to-drink with flavours of breadiness, graininess and a soft hop taste in the finish. The body of the beer is light, with medium carbonation, leading to a crisp finish that cleanses the palate. Although the beer is unfiltered, it is remarkably clear.	Brewery Bars and restos in Kingston, Gananoque and Brockville
Black Bear Bock 6.5%+ ABV	Black Bear is our take on a German eisbock, which means the beer is frozen in the conditioning tank, concentrating the beer and creating a smooth, malty beer, a bit higher in alcohol. The roasted grains give this beer hints of coffee or chocolate. The mouthfeel is much lighter than you would expect. Delicious any time of the year but a particular hit in cold weather months.	Brewery Bars in Gananoque and Kingston
Highland Bull 5.1% ABV	A North American take on an 80 shilling Scottish Ale. Deep amber in colour with a moderate, creamy, off white head. It is a clean, malt-forward beer with slight fruitiness, a malt-focused aroma, bread and toasted malt notes, a hint of caramel, and some residual malt sweetness. Moderate body and mouthfeel in a well-balanced package and just enough hop bitterness to keep the beer from being too sweet. 27 IBU	Brewery Bars in Gananoque and Kingston
Smuggler's Rush (California Common) 5.6% ABV	A California Common style beer from the 19th century Gold Rush. Copper in colour, with woody hop forward flavour and a toasty malt finish. This style has been popularized by the Anchor Brewing Company of san Francisco. IBU 38	Brewery
Cooper's Hawk American Pale Ale 4.2% ABV	This is an American Pale Ale, hoppy, but still balanced and highly drinkable. This beer was named after a hawk that was living in the brewery when we started to renovate. This beer was selected from 53 ales to be served at the Ontario legislature in 2016. IBU 38	Brewery

White Calf IPA 5.5% ABV	This white IPA is a new addition to our line up and a must for IPA drinkers. Its a Belgian-style IPA with hints of clove and banana and the classic citrus notes of an American IPA. The beer uses wheat from Ironwood Organics in Athens Ontario. IBU 56	Brewery
Bell Ringer IPA 6.5% ABV (August 2016)	Our super hoppy IPA, raw, but still balanced and very drinkable. IPAs are not as prevalent in eastern Ontario but we sell a lot of this beer in urban areas and at our brewery. This beer was originally called Trainwreck until the crash in Lac Megantic and the Ottawa bus crash. We changed the name because we thought it was really crappy to have a beer called trainwreck. 64 IBU.	Coming soon
