SPINAL DECOMPRESSION

DTS SPINAL DECOMPRESSION THERAPY®

is a leading non-surgical alternative for disc related syndromes of the lumbar and cervical spine. DTS Therapy uses simple, yet sophisticated, FDA registered equipment manufactured by The Chattanooga Group, the leading rehabilitation equipment manufacturer in the US.

ALLERGY CARE

ALLERGY CARE – LASER TECHNOLOGY

Allergy Care Relief Center offers a breakthrough, state-of-the-art laser technology that treats allergy symptoms at the source.

A FEW ALLERGENS

Dust, Dust Mites, Food, Beverages, Eggs, Dairy, Fruits, Vegetables, Wheats, Grain, Chocolate, Coffee, Wine, Beer (alcohol), Shellfish, Nuts, Fabrics, Plastics, Chemicals, Latex, Herbal Remedies, Woods, Metals, Sunlight, Grasses, Seasonal Allergies, Trees, Weeds, Pollens, Plants, Animals, Insects, Cats, Dogs, Horses, Rabbits, Stinging Insects, Detergents, Softeners, Perfumes, Nutritional Supplements

Utilizing a database of over 25,000 allergen substances Dr. Lavigne identifies the exact allergens causing harmful and uncomfortable reactions such as headaches, sinus congestion, sneezing, coughing, inflammation, and hives.

This advanced and proven technology relieves most symptoms of allergies and sensitivities with one treatment per allergen family.

By getting to the root of the problem the body is retrained with lasers to no longer see the allergens as harmful. This system is great for all ages and does not require painful shots, scratch tests, or medication.

Allergy Relief Care significantly improves, if not eliminates, most allergy symptoms and sensitivities with one treatment per allergen family.

WWW.MYALLERGICARE.COM

Initial Allergy Assessments and Treatments vary for each individual. The number of treatments depend on the symptoms you are experiencing and the number of allergens contributing to your symptoms. Most patients experience noticeable relief after a few visits. Treatments are currently not covered by insurance programs. Our treatments are very affordable. Compare the costs of medication, insurance copayments, deductible and office visit fees. Insurance with Flexible Spending Account (FSA) are applicable toward our services.

ACUPUNCTURE & MASSAGE

ACUPUNCTURE Acupuncture is the procedure of inserting and manipulating filiform needles into various meridian points on the body for pain and therapeutic purposes causing a redistribution of energy that balances and heals.

MASSAGE THERAPY has physical, mental and emotional health benefits by relaxing the body, calming nerves, and reducing anxiety. It is known to lower blood pressure, reduce heart rate, loosen tight muscles, and stretch connective tissue, all of which play an important role in promoting general health while reducing chronic pain.

Melt away the day's stress and help your body restore energy.

HCG

LOSE 15 - 20 POUNDS IN 23 DAYS!

Human Chorionic Gonadotropin or HCG, is a pregnancy hormone that protects the baby by burning the mother's stored fat, making it available for nutrients and energy. In the 1930's Dr. Simeon discovered that small doses of HCG given to overweight men and women decreased appetite while promoting weight loss of abnormal fat stores. This equates to burning of 3500 - 4000 calories or about 1 lb. of fat everyday. HCG has helped hundreds of Dr. Lavigne's patients shed unhealthy and unwanted pounds.

See our website for testimonies and download Dr. Simeon's free book. www.DrShawnLavigne.com

CEDAR HILL & FENTON

Chiropractic Care & Wellness

FOOT BATH DETOX

FOOT BATH DETOX The Ionic Foot Bath is a relaxing and highly-effective method of detoxification that removes toxic buildup in cells from the environment such as metals, medication, viruses, and free radicals.

Detoxification enhances the immune system, reduces blood sugar, relieves arthritis aches and joint swelling, while relieving stress.

ORTHOTICS

ORTHOTICS The average person takes nearly 10,000 steps daily and walks 100,000 miles in a lifetime. Biomechanical problems in the feet have a direct impact on joints such as the ankles, knees, hips, and back which can lead to serious problems.

Orthotics are custom-molded medical plastics that correct foot imbalances and restore normal function in foot mechanics preventing future joint and back issues.

PROGESTERONE BALANCE

PROGESTERONE BALANCE Prolief and Phyto Prolief are the latest and greatest in Arbonne's bio-identical progesterone balancing creams that relieve symptoms caused by hormonal imbalances due to estrogen dominance, PMS, pre-menopause, and post-menopause. These botanical creams naturally balance the body with easy to use pre-metered pumps.

HEALTH AND WELLNESS

TO ACHIEVE A HEALTHY WEIGHT

EAT SMART NOT LESS Eat fiber and lowfat dairy, calcium fortified orange juice, leafy green vegetables – feel full faster with fruits, vegetables, whole grain cereals & bran. They're loaded with disease fighting nutrients, vitamins, minerals, and phytochemicals.
