

Tater Knob Snow Removal Procedures

January 2024

Tater knob has one resident who serves as the Snow Removal Coordinator

The Snow Coordinator is responsible for determining if, when, and how much snow removal is required.

Homeowners on the mountain during a snow event should call the Snow Coordinator and let them know you need service. When the Coordinator determines that the roads are hazardous enough to warrant snow removal, they will contact our snow removal contractor with specific instructions on what roads need clearing. Only the roads to residences that are actually present and have contacted the coordinator will be cleared.

Driveway clearing remains the responsibility of the homeowners.

Jim Faber is the current Snow Removal Coordinator.

His phone number is: **678.404.9686**
