

# AGE<LESS

*Result oriented skincare*

## Authentic European Facial

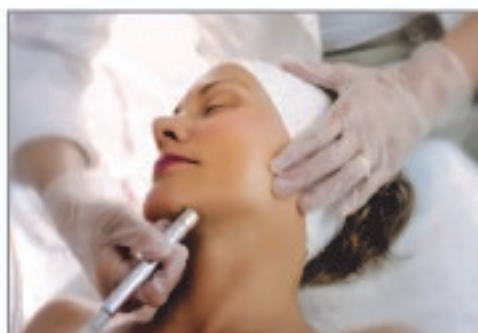

In this revitalizing session the skin is analyzed, sonically scrubbed and exfoliated, and the neck and head are massaged. Steam and galvanic (negative) current are used to soften sebaceous glands, then the skin is vacuumed to lift debris and promote lymphatic drainage. Extraction is done to clear pores, and the skin is misted with toner to clarify and high-frequency light is used to disinfect. A massage of face, décolleté and shoulders follows, and then a galvanic (positive) current is used over the face to penetrate serums deep into the epidermis, toning facial muscles and closing pores. Finally, the appropriate moisturizer with sunscreen is applied to seal in moisture and protect the skin for all skin types.

70 min \$85

## Microdermabrasion

with crystals 35 min \$65

This simultaneously resurfaces and vacuums away dead skin cells, correcting hyperpigmentation and acne scars while minimizing fine lines, wrinkles, and enlarged pores. It accelerates cell turnover to unveil more youthful skin.

## Micro-Current Non-Surgical Face Lift

Micro-current is an electro-stimulation apparatus that provides muscular and coetaneous (age-related) revitalization. The apparatus emits a pulsed galvanic micro-current that provides a lifting treatment for the face and neckline. MC re-trains the facial muscles by strengthening the weak and relaxing the overused releasing the wrinkle. Non-invasive.

45 min \$75

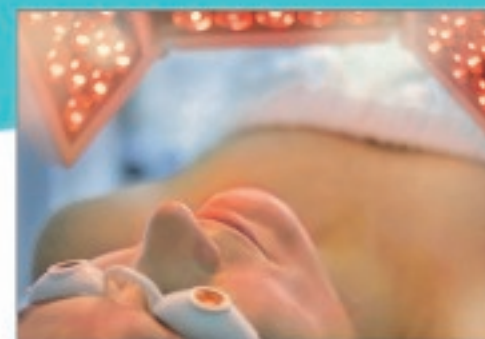

### Micro-current benefits\*

- Tightens and tones the muscles
- Lifts eyebrows and eyelid area
- Firms the skin
- Oxygenates the skin
- Boosts cell renewal
- Stimulates fibroblast (collagen)
- Redefines cheek
- Reduces wrinkles on face and forehead
- Reduces wrinkles around upper lip

\* Contraindications: people with pacemakers, cancer, epilepsy, metal protheses or implants, pregnant women

## Radio Frequency (RF)

RF thermal energy is delivered deep into the dermis, resulting in contraction of the collagen, tightening, adding volume, contouring and lifting the face and neck  
45 min \$120

## LED Photo Panel Treatment

Red LED Photo Light stimulates fibroblasts to produce collagen as it fades pigmentation. Yellow LED helps lymphatic and Blue LED photo has a dynamic effect on the cell itself. LED treats acne, soothes the nervous system and energizes. Visible results include improvement in fine lines and wrinkles, reduction in enlarged pores and capillaries, and even more skin tone and pigmentation, fades scars, and heals acne.
