

## **Messages from the Magical Realms**

Welcome to my latest blog. Today I wanted to share with you some messages that I have channeled from our friends in the magical realms. I am very blessed to be able to channel many different beings and I take great pleasure in being able to share the following ones with you all. I consider they have a lot of wisdom and knowledge to share. From my own point of view, I have found them to offer unique insights into any personal challenges that have arisen over the years. It has also offered me the opportunity to consider things from a different perspective. Probably more than that though, they have provided me with the comfort in knowing that we are never alone and there is so much assistance out there if we would only just ask.

### Unicorns

Unicorns may seem light and fluffy but we are very strong and powerful creatures that exist in the 9<sup>th</sup> dimension. Call upon our power to help you connect with who you are. Call upon us when you need some sparkle and magic back in your life. Our grace, our power, our magic our innate goodness is all yours to be tapped into. All you need is to be pure of heart and to ask.

Do not be fazed by all the chaos in your world at the moment. Choose to stay in love, not fear. Stay in the light and ask for guidance as to which way to move forward. There is nothing to fear dear ones. Fear holds you stuck, rooted in one place. Allowing yourself to feel the love that surrounds your planet and welcome in the changes that are needed. Embrace these changes. Allow your vibration to remain high. Fear spreads quicker than any virus can. Choose to focus on love instead.

### Faires

We are the fairies - we are here to guide, inspire and bring joy into your life. We have such a magical, fun filled life that we wish to infuse into you all. Enjoy each day - laugh, love, be fun filled. Bring more sparkle and fairy dust into your

life. Sprinkle more and more into your every day life. Allow yourself to dance, sing, run, skip and jump - become more childlike in your wonderment of new things as well as the old. Look with fresh eyes and start to see things differently. Magic exists everywhere, in all of your everyday lives. You just need to open your eyes to see. Ask for our help in allowing you to achieve this. Go on I dare you - and let the fun begin!!

### Dragons

We are the dragons - we breathe fire - we create fire. The strength and power within us is rising again in your dimension. To tap into the power and wisdom of the dragon just follow our roar. You will find us on the edge of your reality - just circling around just waiting to be called upon for help. The courage and the fierceness that we have in abundance would be our pleasure to share with you. We have seen many things over the passage of time. We have many insights into all your worldly problems and concerns. Tapping into our power and our wisdom brings a whole new perspective to your life. See your life from our perspective, from our viewpoint and your whole life will be turned upside down. You will never look at things in the same light again.

Our fire has the ability to transmute old energies and lower frequencies. Call upon the dragons to help to clear any stuck energies. Allow yourself to see bigger and better possibilities. Allow the dense negative energies surrounding you to be transmuted into higher vibrational frequencies. Life is so much clearer and full of possibilities from this higher vibrational place.
