Trial Eligibility and ORTs

Basic Description of the Test

To successfully pass an ORT a dog must identify the location of the target odor and the handler must correctly call an “alert” within a three-minute time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes set up in a pattern of *one or two* rows, spaced a minimum of 48” apart. The ORT is conducted on leash. Complete information can be obtained on the NACSW website.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: www.NACSW.net*

No dog will be given more than one space in the same odor test at a single event.

During the odor re-sets, the official results sheet will be brought out to the parking area for testers to photo or review. We recommend you verify your results on the official results sheet and let your host or judge know if you have any questions regarding your results.
