- M. Evaluation of Award:
Insights Training Group, LLC anticipates the award of a single contract as a result of this solicitation to the responsible offeror whose proposal is responsive to the solicitation and is determined to be the best value. Selection of the best value is determined through the process of evaluating strengths and weaknesses of each offeror's proposal in accordance with the evaluation criteria stated herein.

In determining the best value, credentials are more important than past performance. Credentials and past performance combined are more important than cost. Insights Training Group LLC is more concerned with obtaining a proposal demonstrating superior credentialing and past performance than making an award at the lowest evaluated cost. Thus, the closer or more similar in merit that the offeror's credentials and past performance are evaluated to be the more likely the evaluated cost may be the determining factor in selection for award. However, Insights Training Group, LLC will not make an award at a premium in cost that it considers disproportionate to the benefits associated with the evaluated superiority of the offeror's credentials and past performance.

CENTER PHYSICIAN STATEMENT OF WORK

Section A

The center and the center physician hereby agree that the services to be provided will include, but will not be limited to, those health and wellness services specified in the Job Corps Federal Regulations (Title 20 Code of Federal Regulations, Part 638.510) in the Job Corps Policy and Requirements Handbook (PRH) Chapter 2, and applicable Technical Assistance Guides (TAGs). These services include:

1. The development, implementation, and monitoring of the total center health and wellness program, to help students become and stay employed, including:

- Advising the center director and health services staff on all medical and health related matters. This shall include staffing requirements; the advisability of medical separations, including the furnishing of diagnosis, prognosis, and recommendations for future care; the utilization and cost of services; the personalization of patient care; and any other health areas deemed appropriate by the center physician and the center director.
- Consulting with center staff on ordering, accounting for, and safeguarding health equipment, supplies, and medications.
- With due regard for Job Corps requirements, the center physician will prioritize health needs and set program direction accordingly. To accomplish this, the center physician should confer with the health and wellness director (HWD), the center dentist, and center mental health consultant (CMHC), and meet with the center director or administrative officer on a monthly basis to review policies and expenditures for that period and establish restraints, if necessary, to stay within budgetary guidelines. The center physician may involve the regional health consultants in this process, if needed.
- Developing a system to promote the coordination and integration of the health components (medical, oral health, mental health, environmental health, and health education) with other center activities. This will be done in cooperation with the HWD, center dentist, and CMHC.
- Providing advice and assistance to health education instructors on the implementation of the health and wellness program and promoting health and wellness outside the clinic walls (i.e., out on center) to enhance employability of the total student population.
- Ensuring the maintenance, confidentiality, and safeguarding of all health records. Issuing and maintaining signed and dated standing orders for medical care in accordance with Technical Assistance Guide M: Standing Orders.

2. Providing direct medical services to students, including:

- A cursory medical inspection for each student within the first 48 hours after arrival on center, and a definitive medical examination and health history of each student, within 14 days of arrival on center. The medical examination will include the interpretation of all routine laboratory tests. Although much of this work may be delegated, the center physician maintains the

ultimate responsibility for the quality of work performed.

- Diagnosis and treatment of illness and injury, including the center physician's availability on center for acute illness and injury visits.
- Arrangements for preventive immunizations and detection and control of communicable diseases as specified in PRH-2: Appendix 601 and TAG B: Immunization and Communicable Disease Control.
- Provision of all necessary referrals for specialist and institutional care and assisting in reviewing follow up information from such off-center referrals.
- Providing a system of 24-hour emergency back-up coverage/referral.

Section B

The center physician agrees to adhere to the policies, procedures, and guidelines established by Job Corps. The undersigned further agree that the center physician will have primary responsibility to implement the program outlined above and may be assisted by the Job Corps National Office and/or health consultants. The center physician, with the concurrence of the center director, may delegate by written and dated standing orders any of his/her responsibilities set forth in this contract to appropriate qualified staff. The center physician may delegate professional responsibilities set forth in this contract to another full- or part-time physician only with the center director's prior concurrence and a prior review of the secondary physician's qualifications by the regional director and regional medical consultant.

It is understood that the medical services provided by the center physician are subject to monitoring and review by Job Corps. The center physician may contact the regional medical consultant with any questions/concerns.

Under this agreement, the center physician is an independent contractor and not an employee or agent of the contractor or the Department of Labor, Job Corps. The center physician agrees to provide malpractice insurance to cover the physician's professional services to students. The center physician agrees to indemnify and save the center harmless from any expenses, including attorney's fees and also claims on account of damage to property or bodily injury (including death) which may be sustained by himself/herself or his/her employees in connection with work performed.

The center physician agrees to make no public statements concerning students or Job Corps activities without prior written approval of the center director or his designated representative.
