DESCRIPTION: The 52" "Black Beauty" Wing Thunderbird is among the best short hunting bows ever designed. This one is from the original Bob Lee Wing era (before Head/AMF). Great looking and performing recurve. Solid phenolic riser. No delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drill holes. The only flaw in this bow are a few narrow superficial stress lines in the riser & fade-outs, none of which extend into the working area of the bow limbs. The limbs have been partially refinished.
