**\*\*These deadlines are firm. If you are unable to comply with the requirements please see below and speak with the instructor immediately**

**Work Based Learning (WBL) is a valuable experience in which every student in Career and Technical Education is required to participate. All students will be given opportunities to attend a minimum of three classroom scheduled field experiences each school year. Those students who do not attend the scheduled experience(s) will be required to find a site where they will spend a minimum of three class period in a business related to their program of study. The student will be required to get prior signed approval from the teacher's, the parent/guardian's signed permission, fill out a training agreement to be signed by the site supervisor, and provide their own transportation to and from the site. Upon completion of the field experience, the student will be required to complete an assignment provided by the teacher regarding the work-based learning experience.**
