API Q2 Essentials - 2.5 Days

Program Overview

This course was designed to meet the needs of both Operators and Service Providers and covers all requirements of the API Q2 specification including the intent and application. In addition, it covers the critical clauses and controls, teaching service providers how to properly develop, deploy, implement and sustain the specification and operators how to review and audit for maximum effectiveness. In this course, we discuss the fundamentals and thoroughly examine the key controls within the standard and how to apply them to eliminate risk while improving operations.

Upon successful completion, participants will receive a certification with a unique registration number issued by WPAG and be listed in the Industry Registered Professional Network™.

Summary of Course Curriculum

- API Q2 Specification Body of Knowledge
- Product & Service Realization
- Competency Expectation
- Risk Assessment & Management
- Contingency Planning
- Procurement & Critical Suppliers
- Service Execution
- Service Quality Plans
- Contract Review
- Service Designs
- Management of Change
- Internal Audits

The RPN is used for identification and traceability which is audited by accreditation bodies to ensure that each person taking the program has successfully completed all of the course requirements and has been assessed during the practical application by competent and qualified instructors.

Our Commitment

WPAG is an IACET Accreditation Provider (AP) for industry training. In 2016, WPAG was selected by the IACET Award Committee as the winner of the “Exemplar Training Organization Award, IACET's most prestigious award. This award honors exemplary, results-oriented programs that have demonstrated significant and relevant impact on the populations and industries served. WPAG's decision to become accredited to IACET was to ensure participants receive the highest level of training available in the industry.
