Back to OUR CONSTITUTION

We know there are ethical, honest, and dedicated workers in our Intel & Law Enforcement Agencies - Our concerns are not with them.

Please also know that George Washington did NOT want ANY political parties - see **OUR BROKEN POLITICAL SYSTEM** below. That antagonism and divisiveness wastes a lot of time, \$\$, & is a false dichotomy-polytomy - our goals are more similar than not.

We deserve a much more productive political system.

The paradigm we have all known has been built on deception and the dark agendas of the global power structure. The courage Kevin Shipp has

shown by doing his best to expose government criminality and tyranny serves as a stellar example to us all."

*"... we yet realize that America's leadership and prestige depend, not merely upon our unmatched material progress, riches and military strength, but **on how we use our power in the interests of world peace and human betterment.***

... Our military organization today bears little relation to that known by any of my predecessors in peacetime, or indeed by the fighting men of World War II or Korea.

*...In the councils of government, **we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military industrial complex.** The potential for the disastrous rise of misplaced power exists and will persist.*

*... **We must never let the weight of this combination endanger our liberties or democratic processes.** We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together.*

*... Down the long lane of the history yet to be written America knows that this world of ours, ever growing smaller, **must avoid becoming a community of dreadful fear and hate,** and be instead, a proud confederation of mutual trust and respect.*

*... Such a confederation must be one of equals. The weakest must come to the conference table with the same confidence as do we, protected as we are by our moral, economic, and military strength. That table, though scarred by many past frustrations, cannot be abandoned for the certain agony of the battlefield.
...**Disarmament, with mutual honor and confidence, is a continuing imperative.***

Together we must learn how to compose differences, not with arms, but with intellect and decent purpose..."

O: You talked to Putin last week. You had a busy week last week.

T: A pretty busy week. Busy week and a half.

O: Do you respect Putin?

T: I do respect him.

O: Do you? Why?

T: Well, I respect a lot of people. But that doesn't mean I'm gonna get along with them. He's a leader of his country, I say it's better to get along with Russia than not, and if Russia helps us in the fight against ISIS, which is a major fight, and Islamic terrorism all over the world,

O: Right.

T: Major fight. That's a good thing. Will I get along with him? I have no idea. It's very possible I won't.

O: **He's a killer though. Putin's a killer.**

T: **There's a lot of killers. We got a lot of killers. Well, you think our country's so innocent? Do you think our country's so innocent?**

O: I don't know of any government leaders that are killers.

T: Well...take a look at what we've done to - made a lot of mistakes. I've been against the war in Iraq from the beginning

O: Yeah, but mistakes are different than

T: Made a lot of mistakes, ok, but a lot of people were killed, so

O: Alright.

T: **A lot of killers around, believe me.**

Thirteen Americans have been charged under the Espionage Act of 1917. Eight of them were charged under President Obama, including *Thomas Drake* and *John Kiriakou*, who

are featured in the film *Silenced*. Drake is a former senior NSA official who complained of huge amounts of financial waste and abuse and Kiriakou is an ex-CIA officer who reported the use of waterboarding during interrogation. *Jesselyn Radack* has been legal counsel to both men and as a Justice Department lawyer challenged the Bush Administration's treatment of John Walker Lindh.

SOCIETAL DISPARITIES

Wouldn't it be great to have our political representatives demand that the tobacco, alcohol, and sugar industries, and/or those consumers, pay not only for the products, but the actual cost to society as well? That would include healthcare costs associated with all the diseases these products cause. Some of these are cancers, diabetes, COPD, emphysema, and cirrhosis, etc. That might cause the price of a pack of cigarettes and a bottle of alcohol to be hundreds of dollars (or more), so likely the manufacturer would have to be responsible (!!). Non-users of these products should NOT be paying increased healthcare costs and insurance prices due, no doubt, in large part to the very serious health effects from these products. Also, as we all know, our healthcare system is at the breaking point. Many people do not even

have insurance -- and everyone should!!! This cost to society should be going elsewhere -- helping fund education and healthcare for all would be important goals. Healthy food and life-styles should be available and affordable for all ... and the bad stuff more costly!!

REALLY??? DANGERS OF UNFETTERED INNOVATIONS

Just because [a product] makes money doesn't make it a good thing for the future of America, or the World. At this point we must also strongly consider potential risks, both internal and external, and especially regarding the rise of technology and the sacrifice of liberty, in light of Eisenhower's warning of an increasingly military-industrial society.

Excerpt from *Common Sense - An Update For Our Times*

*"...In terms of capitalism, the innovations as a result of this system are incomparable. However, we do not need to allow all products passing current requirements to be available in the marketplace and indeed they should not be. For example, drones are a good resource for science and other sanctioned uses. I see no beneficial reason for my neighbor, either next door or three miles away, to have a drone for personal use. In fact, it seems voyeurism would be the main reason for a regular citizen to have such a product that flies high and to such distances. Moreover, our legal, widespread gun availability and abuse has led to the murders of multitudes of men, women, and children. We do not even yet have control of that old, deadly invention. It is unreasonable to blame general gun violence on the perpetrators; they are not all of unsound mind and weren't born with such a weapon. As we know, many times guns are a weapon of convenience. Yes, there are also people out to do us harm. However, it is undeniable that gun violence correlates with the amount and types of guns available. (If there were no guns, there would be no gun violence.) **Why should the even more, potentially, deadly drone, be legal to the public?...**" Judith Futerfas 8.14.16*

Mission Statement

The Organization is nonprofit, nonpartisan, and promotes fidelity, respect, and understanding of the United States Constitution by distributing copies of Our Constitution and providing community outreach enabled by volunteers and donors.

Handing Out & Mailing Constitutions

Having Our Constitution in its original paper medium also reminds us further of the dedication, toil, and sacrifices Our Founders made -- sacrifices made to secure the freedoms and rights that are ours to this day. We must ensure that these efforts, and the lives given and lost that were so crucial to this struggle, are never forgotten; and that even as aspects of society continue to change, *the humanity strived for in Our Constitution must remain fundamental to our actions and values and never be compromised.*

Our Founding and Philosophy

Our Founder, Judith Futerfas, has become increasingly concerned about events, both personal and widespread, that have transpired in our Country. She was in Washington, D.C. over the 2016 Memorial Day weekend and visited the Capitol as well as the Archives, and numerous other memorials and museums. She describes the Memorial Day Parade as glorious beyond words, with attendance of many thousands from near and far ... The experience in Washington was "wonderful, educational, and most inspiring". Judy was even motivated to write a letter to her local paper, The Miami Herald, which was printed on July 6, 2016 titled, "Our History" (see below). The letter was on the internet the day prior: <http://www.miamiherald.com/opinion/letters-to-the-editor/article87795072.html>.

Article by Judith Futerfas from the Miami Herald, 7/5/16 "Our American History":

“The televised Fourth of July celebration from Washington, D.C. brought back wonderful memories of my time there during this past Memorial Day weekend. The city was beautiful and the reverence for our country’s great history was omnipresent and inspiring.

The U.S. Capitol, Lincoln Memorial, Ford’s Theater, and other superb monuments should be experienced by everyone. Having been through immeasurable hardships, it is clear that our founders realized they were providing an overarching guidance that would hopefully see the country successfully through future challenges. We owe much to their bravery, insight, and determination.

In revisiting the thoughts and actions of Washington, Jefferson and Lincoln and others, it seems to me that, as a society, we have deviated from their most important qualities. People in positions of authority require the most scrutiny and respect.

I think it is time to demand that all those given the privilege to oversee others should work towards developing the insight, thoughtfulness and ethics our forefathers strived for of themselves and in the Constitution and Bill of Rights. In light of the heroic efforts that have transpired to ensure our freedoms and rights, I hope it isn’t too much to ask that all people with such authority are indeed worthy of it.”

To further elucidate the hope for this effort, our goals include, without political affiliation, to increase public awareness that no one is permitted to be above the law, nor will anyone be beneath the law. Moreover, to emphasize that our *Constitution specifically states, in Amendment V, that "No person shall be deprived of life, liberty, or property, without due process of law..."* Also, our *Declaration of Independence gives three examples of unalienable rights..."Life, liberty, and the pursuit of happiness"*. Furthermore, *a government is created to protect these rights and to ensure that justice, including due process, proceeds ethically and with integrity -- blind to outside influence, and weighed with fairness, objectivity, and impartiality -- equal for all.*

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

AMENDMENT V OF OUR CONSTITUTION:

... no person shall be deprived of life, liberty, or property without due process of law ...

THE DECLARATION OF INDEPENDENCE:

... unalienable rights that among these are Life, Liberty, and The Pursuit of Happiness - That to Secure these Rights, Governments are instituted ...

Our Founding and Philosophy

OURCONSTITUTION.INFO

Judy feels that, as a society, we have veered far off-course from the law and humanity conveyed by the Constitution, which our Founders worked and sacrificed so much for. She hopes the efforts of The Organization will make a difference to all those who read the Constitution and realize the determination, dedication, vision, and integrity of our Founders. Her letter to the Miami Herald specifically mentions concerns regarding people who have authority over others. It is also beyond shameful, and clearly antithetical to our Founders' vision, that there is such widespread hate, maliciousness, and often lethality inflicted upon one another, randomly and otherwise ...

To further elucidate the hope for this effort, our goals include, without political affiliation, to increase public awareness that no one is permitted to be above the law, nor will anyone be beneath the law. Moreover, to emphasize that our *Constitution specifically states, in Amendment V, that "No person shall be deprived of life, liberty, or property, without due process of law..."* Also, our *Declaration of Independence gives three examples of unalienable rights... "Life, liberty, and the pursuit of happiness"*. Furthermore, *a government is created to protect these rights and to ensure that justice, including due process, proceeds ethically and with integrity -- blind to outside influence, and weighed with fairness, objectivity, and impartiality -- equal for all.*
