

Ridiculously Adorable Clothes for Kids

Size Information

For reference, cape & capelet sizing is listed below, from the actual patterns.

- Capelet 6-mos: weight 13-18 lbs, height 24-26.5"
-
- Capelet 12-mos: weight 18-21 lbs, height 26.5-31"
- Capelet 18-mos: weight 21-24 lbs, height 31-34"
- Cape Small 3-4: chest 22-23", waist 20.5-21", hip 24"
- Cape Medium 5-6: chest 24-25", waist 21.5-22", hip 25-26"
- Cape Large 7-8: chest 26-27", waist 23-23.5", hip 27-28"

I reduced the Cape Small to make an X-Small 3T (chest approximately 21-21.5"), and enlarged the Cape Large to make an X-Large 9-10 (chest approximately 28-29"). I have a different pattern for capes larger than my standard X-Large.

I can enlarge the Capelet 18-mos to a 24-months size.

If you are unsure of size, age is usually a good basis, but size up if nearing a birthday or tall for the age.
