

Happy Puppies = Healthy Employees

*See what the human-animal bond can do.
The love is unconditional!*

Official partner of the Milo Foundation.

An Experiential Wellness Activity

Health and wellness is a huge concern in our workforce today. With all the multi-tasking, fast pace environments people need a break so they can reduce their stress and open their minds. Puppy Love provides the fun and love needed to rejuvenate your employees. We provide you with a supplement to your health and wellness programs by providing cuddly, furry, four legged friends. This is a great way for employees to release stress and have some fun. As well as supporting any corporate giving back or philanthropy strategy.

Happy Puppies = Healthy Employees

Puppy coaches will come to your wellness activity location with a small collection of adorable puppies from our local rescues. Events are approximately two hours and all you need is a little space. We provide set-up, supervision, education, clean-up and safe transportation for all the pups. We even offer a “puppy kissing booth” for your photo op moments that you can post on Facebook, Instagram or Snapchat to share with your colleagues and friends.

The puppies come from the Milo Foundation, a non-profit rescue, adoption center and sanctuary for domestic animals. Their mission is to rescue adoptable at-risk animals, match them to homes best suited to provide lifetime care, rehabilitate those who need it, offer sanctuary to those who are not placed, and educate the public about responsible pet guardianship, including spay/neuter. This program was designed to support the education and awareness of choosing pet adoption over buying or breeding and our puppies are available for adoption onsite during your event.

Imagine your employees going home with a puppy that day. Bringing love and happiness to them and their family while supporting such a wonderful cause. How fabulous would that feel? AWESOME!
