

ANNULAR SOLAR ECLIPSES

VENUS THE 'PHOENIX' DESCENDING

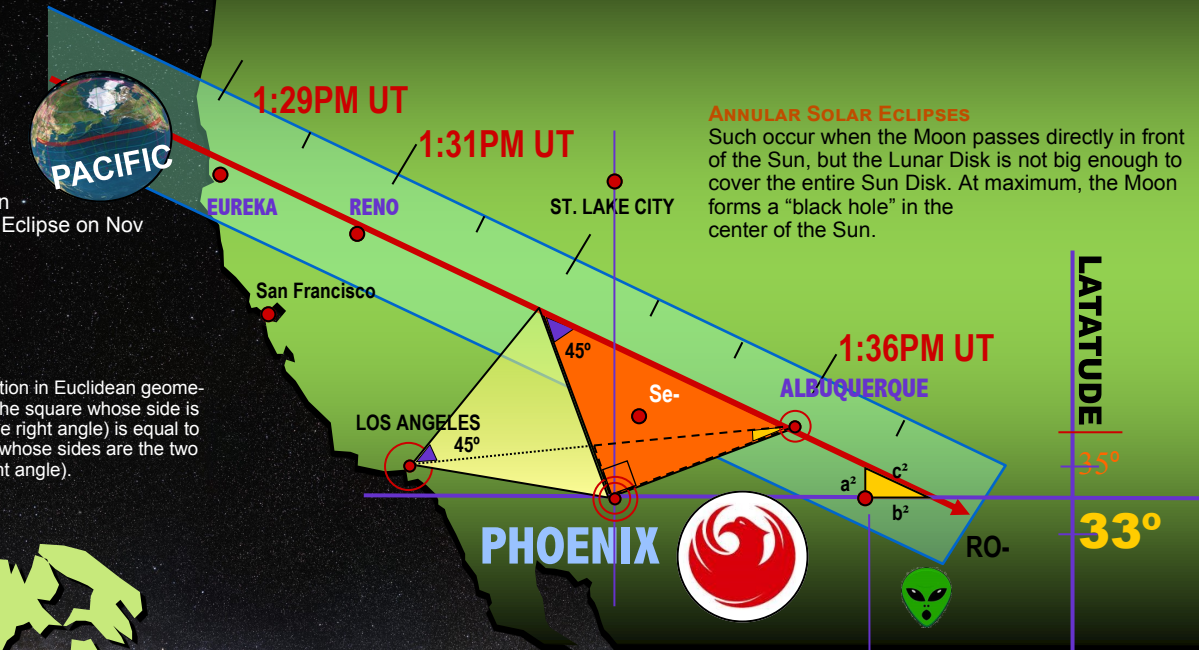

The purpose of this illustration is to ascertain if there are any prophetic or esoteric connotations to the Fall of America as the Phoenix that has to be imploded to make way for the new one to be birthed as in the New Age or New World Order. Could this be an Omen that the Descent of the Phoenix is coming upon America? On May 20, 2012, an Annular Solar Eclipse starts up across East Asia, over to the northern Pacific Ocean, and then travels down into the Southwestern portion of the United States. This Eclipse is associated with the alignment of the Pleiades or when the Pleiades-Sun-Earth are "joined" together. Three remarkable astronomical events of 2012 will be: 1) The Annular Solar Eclipse. 2) Followed by the Transit of Venus on Jun 6, 2012. 3) Then a Total Solar Eclipse on Nov 13, 2012. May 20 is the 140th day of the year (141st in leap years) in the Gregorian calendar. There are 225 days remaining until the end of the year.

45° CELESTIAL GEOMETRY

If one superimposes a 45° Right Triangle with the base along the Annular Eclipse center line as it enters the USA, then Phoenix, Arizona will be at the apex on the 33° Latitude. Roswell, New Mexico happens to be at the 33° Latitude also. You also get an equilateral triangle to Los Angeles. These combined triangles conjoin at Albuquerque. The Annular Eclipse ends near Midland TX. The same 45° Triangle Pattern configuration can be superimposed from the Eclipse Apex in the north Pacific with end-point marking off the start and ending Latitude-Longitude of China and Chichen Itza. The Pyramid there is also at a 45° angle that mirrors the Ecliptic Apex geometry.

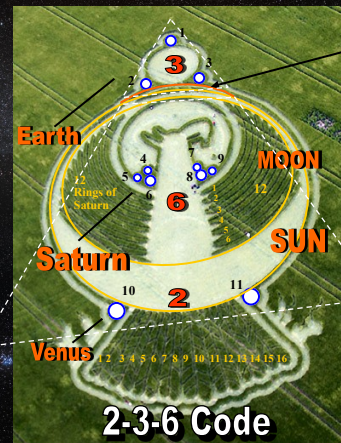

PYTHAGOREAN THEOREM It is a relation in Euclidean geometry. In any right triangle, the area of the square whose side is the hypotenuse (the side opposite the right angle) is equal to the sum of the areas of the squares whose sides are the two legs (the two sides that meet at a right angle).

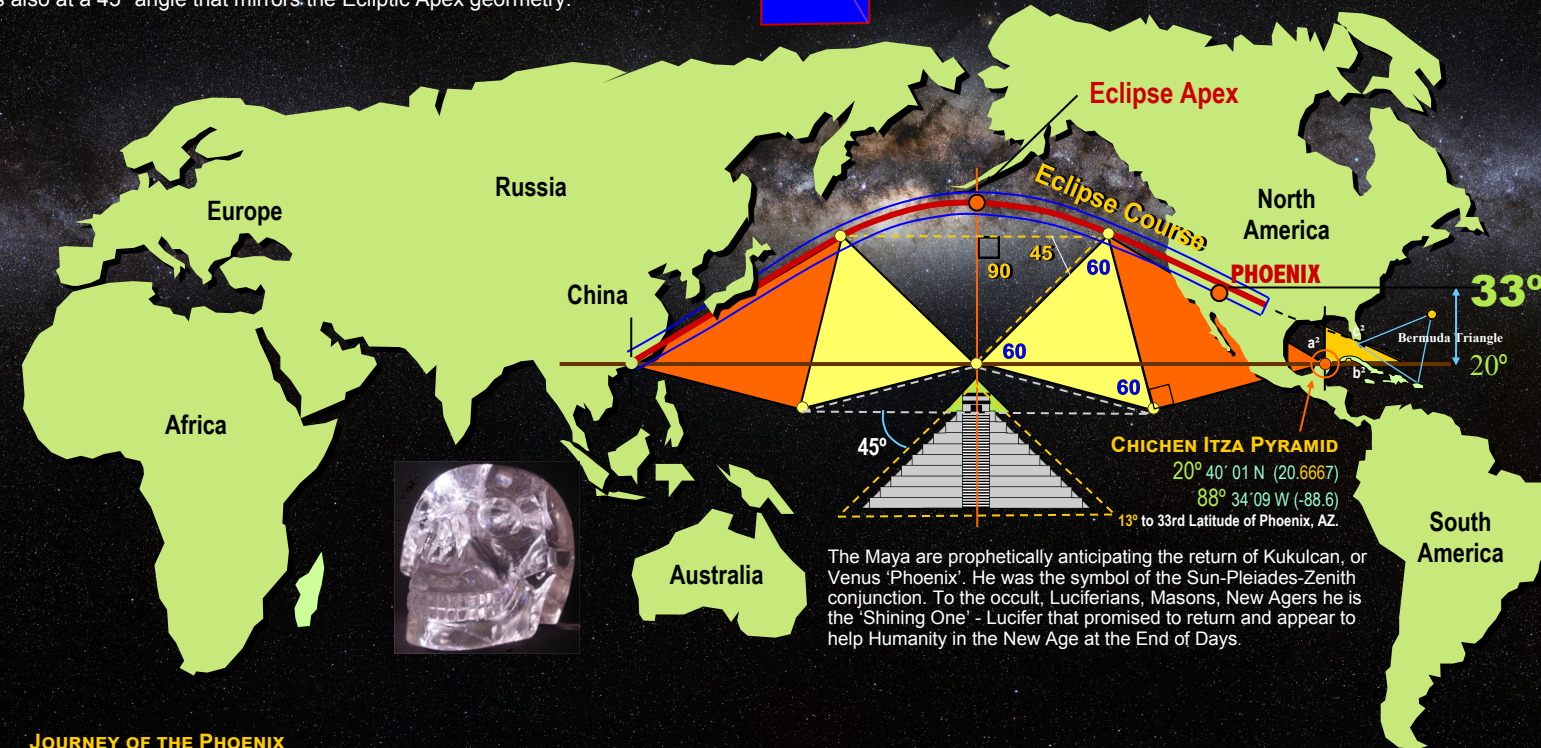

ANNULAR SOLAR ECLIPSES Such occur when the Moon passes directly in front of the Sun, but the Lunar Disk is not big enough to cover the entire Sun Disk. At maximum, the Moon forms a "black hole" in the center of the Sun.

Phoenix within an Annular Eclipse

Object or Celestial Body Behind Sun or Eclipse?!

PHOENIX

CHICHEN ITZA PYRAMID

20° 40' 01" N (20.6667)

88° 34' 09" W (-88.6)

13° to 33rd Latitude of Phoenix, AZ.

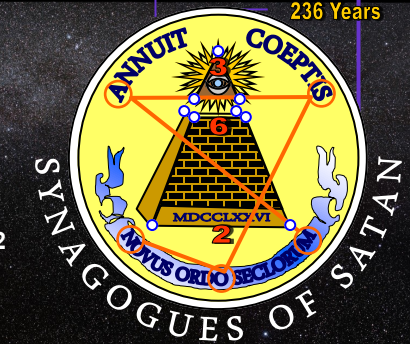

The Maya are prophetically anticipating the return of Kukulcan, or 'Venus 'Phoenix'. He was the symbol of the Sun-Pleiades-Zenith conjunction. To the occult, Luciferians, Masons, New Agers he is the 'Shining One' - Lucifer that promised to return and appear to help Humanity in the New Age at the End of Days.

JOURNEY OF THE PHOENIX

In 2011 the USA witnessed a journey of the 13 Crystal Skulls that started at Chichen Itza, Mexico. The 'descent' of the Red Dragon or 'Phoenix' Serpent came from the opposite side of America on the East Coast at a 45° descent that ended in Los Angeles. Interestingly, 6 months later the Eclipse ends at an 45° angle from the opposite direction near Phoenix, Arizona and Roswell, New Mexico. Both are associated with the place of the 'Fallen Aliens'. Sedona is the center of the pyramid triangle formed from LA, the Eclipse path and Albuquerque. *2550 Days from Book of Daniel.

USA REVERSE SEAL

When New Order is to come
Venus Transit
Jun 6 to Jul 4 = 30 Days
1 Venus Day = 243 Earth Days
It is 1 Cycle of Venus, 243 years.
 $1776 + (243) = 2019 - 7^* = 2012$
Phoenix Crop Circle = 3-2-6 Code
 $1776 + 236 \text{ Years} = 2012$

PHOENIX ECLIPSE

A 2009 crop circle depicted a Fiery Phoenix within an Annular Eclipse Number-Planet association. The number of Nodes is equal to the position of the Planets from the Sun, then 2=Venus, 3=Earth, 6=Saturn. This appears to be a code for (236 Years). This could correlate to how old the USA is on 2012 since 1776 or perhaps how long it is to last out of the 243 Year Venus Pyramid Cycle. Also, an object or celestial body appears to be behind the Sun and mirrors the US Seal.
