

**3 - Day Junior Camps are ideal because they are designed to be fun and educational for the beginner and intermediate players.**

- Player will develop the fundamental skills of putting, chipping, bunker play and full swing.
- Learning about rules, etiquette and sportsmanship makes golf more fun and interesting.
- Nine hours of training over three days gives students an opportunity to improve rapidly and build confidence.
- Our motto is “Fun and Safe” so this means the activities are brisk and fast moving. Nobody will get bored.
- Students will be grouped by age and skill level.
- All necessary equipment can be provided.

**“Advanced” 3 - Day Junior Camps offer more technical aspects of full swing development, as well as more competitive drills. Strategy including course management and club selection are practiced with some course play.**

- Taking your game to the next level requires sound fundamentals and finding the right swing for you.
- Testing and applying various impact conditions prepares players for achieving a high level of skill.
- Building confidence comes from constructive practice and learning.
- Juniors need to develop from the hole back. Emphasizing putting, chipping and pitching is crucial for young players.
- Similar to the 3-day camps, students will be grouped by age and skill level.
