

NRE Fireworks Restrictions

NRE does not have any restrictions on fireworks; however, the subdivision does fall under County and Cleburne restrictions on fireworks.

Part of NRE is restricted because it is within the 5,000 feet fireworks buffer zone of Cleburne city limits, and falls under Cleburne restrictions. The Cleburne Fire Department says that fines for violating the city ordinance range from \$200 to \$2,000,

Those restrictions are available in the local newspaper, Cleburne Times-Review or by calling the Cleburne Fire Department at 817-645-0964.

Two maps are included with this posting. The first map shows the NRE area within 5,000 feet of Cleburne and the second one is a zoomed version of the same map. The representation of NRE lots on the maps is not exact, but it serves the purpose.
