Dear Sir/madam:

Re: [REDACTED] Paul TAYLOR

Although a form 9 was submitted advising you that Mr. Taylor returned to work, I must further advise you that he is off work again. Mr. Taylor did have problems continuing his regular work as a truck driver due to the ongoing pain. He last worked March 17, 1997 to the end of his shift. His first day off again was March 19, 1997. His rate of pay was the same as his preaccident earnings at \$15.00 / hr.

I am also enclosing a doctor's note from the Credit Valley Family Practice Centre dated March 19, 1997 which authorizes him off work at least until March 26, 1997 when he will be reassessed again.

Yours truly,

Mrs. C. Panciw
WCB Administrator
