USA Softball Adult Liability Insurance Change for 2017

Effective January 1, 2017, RPS Bollinger/Markel are changing how they insure Field Owners in the USA Softball Insurance Program. In the past, local associations and leagues were able to purchase Field Owner Liability Insurance to cover their field owners for USA Softball (formerly ASA Softball) activity on their fields. The low, flat rate premium charge did not reflect the level of softball activity on those fields. Therefore, the cost of purchasing a liability policy in that way is increasing to a level that will no longer be affordable.

Beginning in January, RPS Bollinger is offering a better, more affordable way to insure adult USA Softball teams, and their field owners. RPS Bollinger will collect a liability premium for every team registering with USA Softball. That liability premium will be included in a \$30 per team USA Softball registration fee. Once all teams are registered, league directors and team managers may request additional insured liability certificates for their field owners AT NO ADDITIONAL CHARGE.

In other words, liability insurance for the teams, leagues and the field owners is built into the registration fee of \$30, and field owners will now be named as additional insureds at no additional cost to them or to the teams.

Adult registration fees through USA Softball in the Maryland – D.C. – Delaware area will be \$30 per team for 2017.

Registration for 2017 must be completed and submitted to USA Softball/Maryland – D.C. - Delaware prior to the start of the season. Teams must provide the following information to register:

Name of Team
Manager Name, Address, City, State, Zip Code
Manager E-mail
Field Owner Information – Name and Address – for Additional insured Certificates

Important Note: Accident Insurance (excess medical coverage for medical bills incurred by injured players) is NOT included in this registration. Teams may purchase Accident Insurance by contacting RPS Bollinger at 1-800-446-5311 x 8236.

For any additional information contact the Commissioner Jack Hutcherson at 240-691-9254.
