

# BLACK HAWK

## BLACK HAWK COMPOUNDS

**NEW!!!**

### CHIEF SCOUT—B-01

Black Hawk's top of the line. Unbelievable laminated beauty!! The Black Hawk craftsmen have gone all out to build the finest compound yet. The handle section is made by laminating contrasting hard woods for unparalleled beauty and strength. Limbs are made of the finest fiberglass available and rock maple laminations. Built and engineered for the discriminating archer.

#### Specifications

1. Rug rest with leather side plate.
2. 44" axle to axle, 47 1/4" overall.
3. 38" string length.
4. Standard draw length 27-30".
5. Weight, 2 lb. 9 oz.
6. Packed one bow per carton.
7. Shipping weight, approx. 4 lbs.

#### Optional Equipment

1. Factory mounted hunt sight.
2. Factory mounted bow quiver
3. Small pulley to accommodate 26" draw or large pulley to accommodate 31" draw.
4. Plunger package includes flip rest and mounted cushion plunger.

**NEW!!!**

### JUPITER—B-0

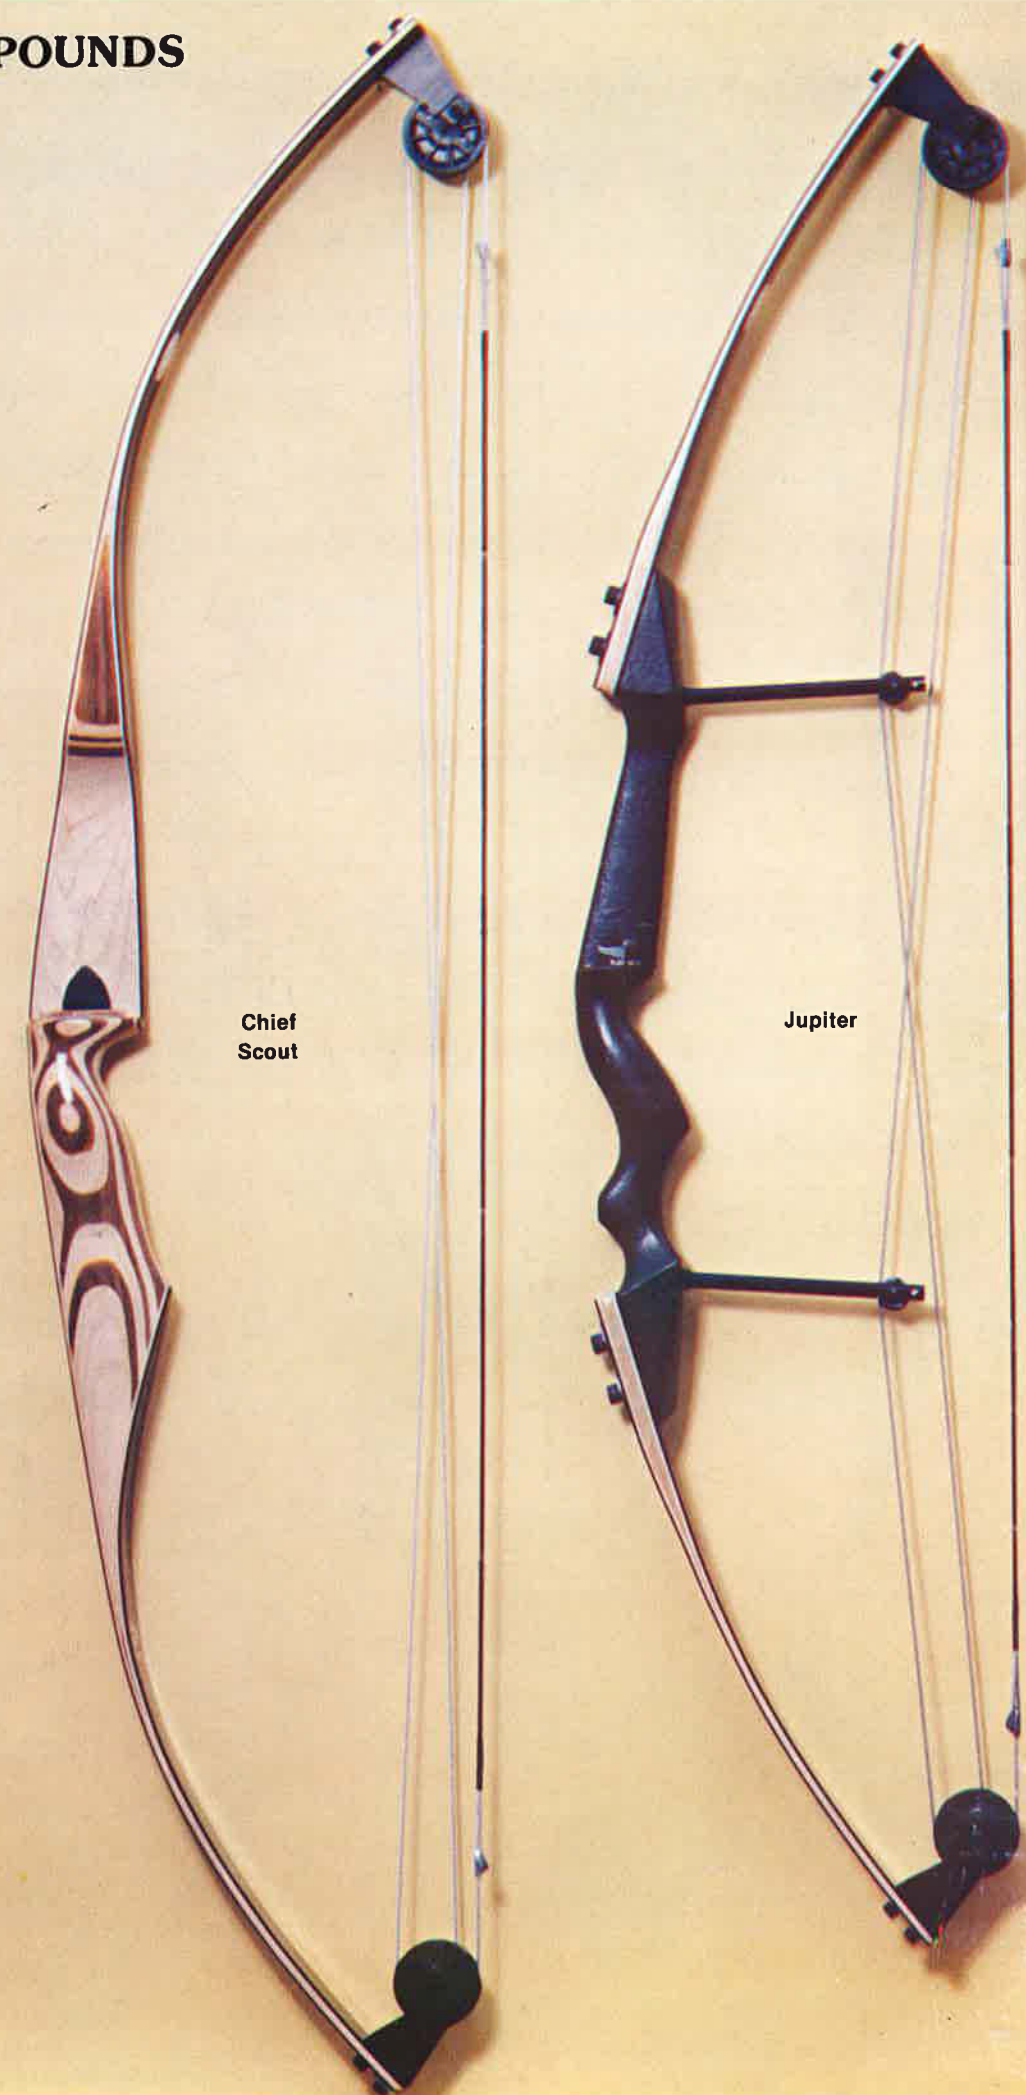

An extremely fast shooting "two wheeler" compound that is an eye catching beauty! Handle section is a cast aluminum alloy. Limbs are hard rock maple laminations and Gordon Bo-Tuff fiberglass.

#### Specifications

1. Hoyt Flex rest.
2. 40 3/4" axle to axle, 44" overall.
3. 35" string length.
4. Standard draw length 27"-30".
5. Drilled and tapped for Black Hawk Bow sight, Bow Quiver and stabilizer.
6. Weight 4 lbs.
7. Packed one bow per carton.
8. Shipping weight, approx. 6 lbs.

#### Optional Equipment

1. Factory mounted hunt sight.
2. Factory mounted bow quiver.
3. Small pulley to accommodate 26" draw or large pulley to accommodate 31" draw.
4. Plunger package, includes Flip rest, and mounted cushion plunger.
5. Factory installed leather grip cover.
6. Factory installed draw weight adjustment. Easily adjusts to three different weights.

# BLACK HAWK COMPOUNDS

Saturn

Warrior

## SATURN—B-3

This is it! The bow every hunter's been waiting for. The compound that brings the bow back to the hunter. The Saturn relaxes almost 50%, measures only 40 $\frac{3}{4}$ " axle to axle, is made with a laminated exotic hard wood handle and weighs 2 $\frac{1}{2}$  lbs. The bow must be seen and drawn to be believed.

### Specifications

1. Rug rest with leather side plate.
2. 40 $\frac{3}{4}$ " axle to axle, 44" overall.
3. Standard draw length 27"-30".
4. Weight, 2 lb. 8 oz.
5. 35" string length.
6. Packed one bow per carton.
7. Shipping weight, approx. 3 $\frac{1}{2}$  lbs.

### Optional Equipment

1. Factory mounted hunt sight.
2. Factory mounted bow quiver.
3. Small pulley to accommodate 26" draw or large pulley to accommodate 31" draw.
4. Plunger package, includes Flip rest and mounted cushion plunger.

**NEW!!!**

## WARRIOR—B-4

Black Hawk's new economy priced "two wheeler" is not economy conscious when it comes to performance. Light, reliable and rugged describes this beauty. Handle section is made of laminated 4/4 oak for strength and beauty. Limbs are Gordon Bo-Tuff laminated to hard rock maple cores.

### Specifications

1. Rug rest with leather side plate.
2. 40 $\frac{3}{4}$ " axle to axle 44" overall.
3. Standard draw length 27"-30".
4. Weight 1 lb. 12 oz.
5. 35" string length.
6. Packed one bow per carton
7. Shipping weight, approx. 3 lbs.

### Optional Equipment

1. Factory mounted hunt sight.
2. Factory mounted bow quiver.
3. Small pulley to accommodate 26" draw or large pulley to accommodate 31" draw.
4. Plunger package, includes Flip rest and mounted cushion plunger.

# BLACK HAWK BOWS

## SHORT BEE—B6

The great Blackhawk Standby. A fine mid-length bow used by beginners and experts alike. The stable limb design and dark hardwoods combined with a rich finish make this one of Blackhawk's all-time favorites. Comes equipped with rug rest and leather plate for quiet shooting.

Specifications—Bow length 60", 62". String length 56", 58". Fistmele 8". Approx. shipping weight 2 $\frac{1}{2}$ #. Packed one bow per carton.

Short Bee

Avenger

Firebolt

## AVENGER—B13

A beautiful compact hunting bow designed strictly for the hunter. The handle is made of dark hardwoods highlighted by maple laminations. Limbs have been redesigned for vastly improved performance.

Specifications—Bow length 52". String length 48". Approx. Fistmele 7". Approx. shipping weight 2 $\frac{1}{2}$ #. Packed one bow per carton.

## FIREBOLT—B7

A relatively new member of the family of Blackhawk bows. The name implies the performance. The handle section is of dark hardwoods with a true center shot. It has a working recurve and its compact length makes it ideal for hunting or bow fishing. Also excellent for schools or camps. A lot of bow for the money. Comes with rug rest and plate.

Specifications—Bow length 56". String length 52". Approx. Fistmele 7". Approx. shipping weight 5#. Packed two bows to a carton.

## BLACK HAWK ARROWS

### A900 SERIES

This is Blackhawk's aluminum series of arrows. Advantages of aluminum include speed of flight and straightness of shaft. All aluminum arrows are made with Easton shafts and professional type nocks. Aluminum arrows are packed in 1/2 dozen and one dozen packs. They are shipped in masters of six packages available with target, field, or hunting points.

### A980

One-half gross pack of aluminum arrows with a 4" fletch and converta insert, cut at 29" or 30" and choice of spine...for the dealer with customers who wish to purchase 2 or 3 arrows and choose his own point.

**G700 Series**—The Blackhawk glass series of arrows. Advantages of glass included resistance to bend, weatherproof, and very fast arrow flight. Arrows are packed in 1/2 dozen and 1 dozen boxes. All glass arrows are made with professional type nocks. Shipped in masters of six packages. Available with target, field, or hunting points.

**G980R**—One-half gross pack of glass arrows with 4" fletch and converta inserts, cut at 29" or 30" and choice of spine.

### A910 SERIES

Our finest cedar arrows. Made from the finest precision ground, highly polished port orford cedar available. The A910's are fully painted then half dipped and hand crested to make one of the most beautiful arrows anywhere at any price. Available with target, field, or hunting points. Packed 1 doz. or 1/2 doz. to a box. Shipped 6 boxes to a master.

### A925 SERIES

An economy priced arrow that is high in quality. Randomly selected from quality port orford cedar shafts, the A925's are fully painted and crested. Available with target, field, or

hunting points. Packed 1 doz. or 1/2 doz. to a box. Shipped 6 boxes to a master.

### A930 SERIES

A quality field arrow packed in gross or half gross boxes. Uses 11/32 shafts. The A930's are fully painted and crested and spined for bows 40# or under. Length 28" unless otherwise specified and comes with 4" fletch.

### A950 SERIES

Black Hawk's school arrow. A quality target arrow available in gross, 1/2 gross or dozen packs. Nock cock and crest are matched. Fully painted shaft with 11/32 diameter and 3" fletch. Lengths—assorted 26", 27", and 28" unless otherwise specified. For bows 40# or under.

### A960 SERIES

Black Hawk's economy target arrow. Shafts are fully painted with 5/16 diameter. Available in gross or 1/2 gross boxes. Lengths are 24", 26", and 28" unless otherwise specified and fletching length is 2 1/2". For bows 35# or under.

### A970 SERIES

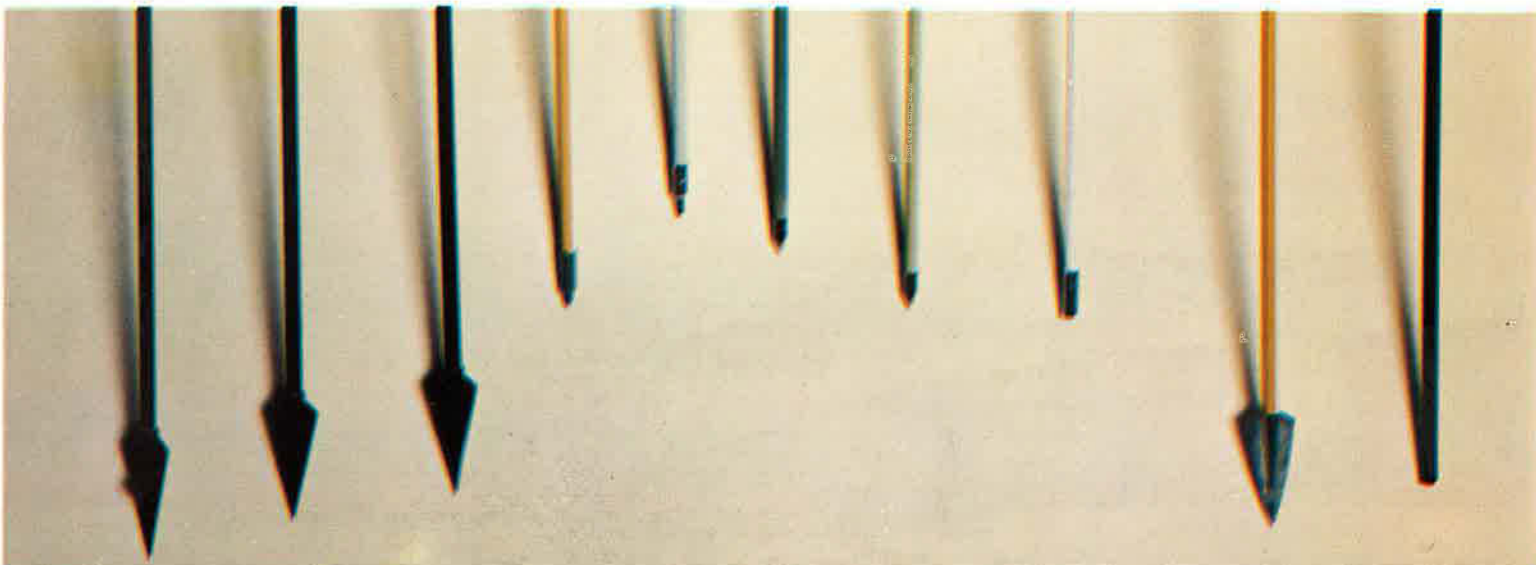

Black Hawk's Flu Flu's for birds and small game. Made from #2 port orford cedar shafts fully painted and hand crested. Comes with 6 fletchings rather than one wrap around fletch as most other flu flu's do. Comes with 125 grain field or blunt point. Shaft size is 11/32". Available in dozen packs. State length when ordering.

### A945 SERIES

A full length, fully painted #2 port orford cedar arrow. Fletching is 5" in length and shaft size is 11/32" in diameter. Spined in 5# increments. This is the perfect arrow for the craftsman who wants to choose his own point and arrow size.

**A940 Series**—Blackhawk's economy hunting and plunking arrow. Packed in dozens. It is a two-bladed hunting arrow, spined for bows 40#—55#.

All Black Hawk arrows have their points knurled or ferrule cemented on the shaft. Crimping the points is easier and cheaper but that's not our goal.

## BLACK HAWK QUIVERS

**605**—Belt side quiver with pocket and a clip to attach to belt. Made of fine leather for a lifetime of beauty and performance. Also available in vinyl for the economy minded archer. Vinyl code—605P

**606**—Pistol type quiver with pocket for access. Another beautiful but rugged leather quiver. The 606 is also available in vinyl. Vinyl code—606P

**685-P**—Two compartment shoulder quiver, with large zipper fastened, accessory compartment.

**610-C**—Camouflaged heavy duty expanded vinyl with leatherette interior.

**600-P**—An ideal belt quiver that will hold at least 6 arrows.

**650-P**—An ideal child's belt quiver, richly trimmed.

**670-P**—Side quiver with clip to attach to belt.

**BHPO**—Pocket quiver with access pocket.

## BLACK HAWK TABS & GLOVES

### TABS

When ordering tabs, order small, large, right or left hand.

**550**—Finger Tab—Soft Cowhide finger tab. Available: large and small right hand or left hand.

**552**—Finger Tab—All leather double tab with elastic finger strap.

**KP-100**—Kant Pinch leather tab. Snap on tab with replaceable leather facing.

**KP-300**—Kantpinch hair tab. Snap-on tab with replaceable hair facing (not illustrated).

**510**—Leather back with open vinyl tips.

**520**—Open, soft cowhide tips with elastic insert in back.

**520C**—Same soft cowhide tips except camo back with elastic insert.

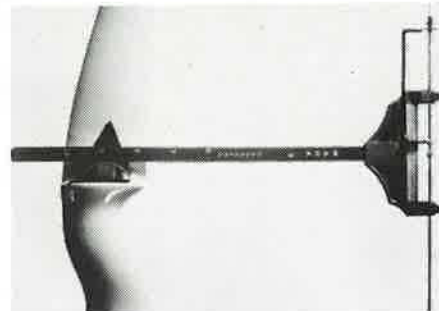

**530**—Closed end styled with soft cowhide tips. Elastic insert keeps glove back smooth, and finger stalls snug. Relieves wrist-strap tension.

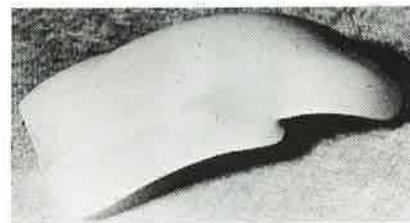

# BLACK HAWK NOCKS, CAMO EQUIPMENT & BOW HUNTING AIDS

**Sex Driving Deer Lure—By Bob Kirshner**—Lure field tested during Pennsylvania's 1975 Bow Season. Attracted 17 Bucks (5 in one morning) And 52 Doe. Deer come very close when using my Sex Driving Lure during or before the rutting season. Recommend the hunter get up off the ground a minimum of 10 feet. After 15 years of experimenting, the ingredients have been finalized for your success. A complete field test report with every order plus **Detailed** instructions. Believe me, it works!

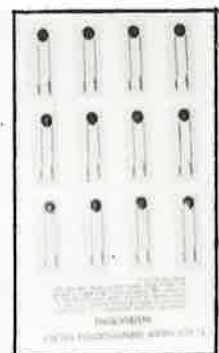

**BOS—Bow Square**—Determine brace height, mark it on tape. Use different color pencils if you have more than one bow. Same marking tape principle on nocking point, kisser and peep location.

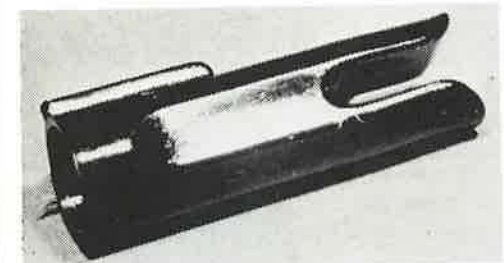

**BN—Black Hawk Bow Nock**—Made of virgin nylon. For new bows or for repairs. Hole size 1/2"x3/16"x1"

**BS—Bowslings-Standard**—For positive bow control. Fits any bow. Packed 12 slings per carton.

**I.D. Black Hawk Identification Decals**—12 decals per sheet. Decals are numbered 1 to 12 inclusive with lines for name and address. An easy device for identifying your arrows, with numbers to identify your shots. Available in five different colors—assorted. Very easy to apply.

**AN-12—Nocks**—Made of finest plastic available, designed to eliminate finger pinch, indexed for ease of nocking correctly. Available in 5 colors—white, yellow, red, green and black. Available in 100 pack.

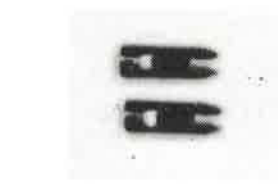

**B-704—Compound Bow Covers.** Same as B-705 except fastens on limbs with velcro. Eliminates problem of camo bow covers for compound owners.

**B-705 Camouflage bow cover.** Fits upper and lower limbs. Eliminates reflection off bos.

**DEER HUNTER'S HANDBOOK**  
EVERYTHING I KNOW ABOUT  
BUCK WITH A BOW by BOB  
KIRSCHNER (BOWMAN)

• Tips • Graphics • Photos • 104 Pages of practical information for the experienced bowhunter as well as the beginner (Author's credentials are 15 trophy bucks in the past 17 years). Secrets of deer hunting with guaranteed satisfaction!

**A225—Pro line snapvent nocks.** A professional type nock used by many top shooters. Winner of 2 PAA National Championships. Available in packs of 12 or 100.

**KW—Kwik-Lok Arrow Holder**—Keeps arrow on the string for that quick shot. A real finger saver. You can even wear mittens if you want on bow hand. Releases automatically without any motion visible.

**CATA—Black Hawk Camouflage Bow Tape.** A completely camouflaged bow tape with pressure adhesive backing for ease of application on all bows; ideal for quick camouflaging of bows during hunting. (Directions with each roll.)

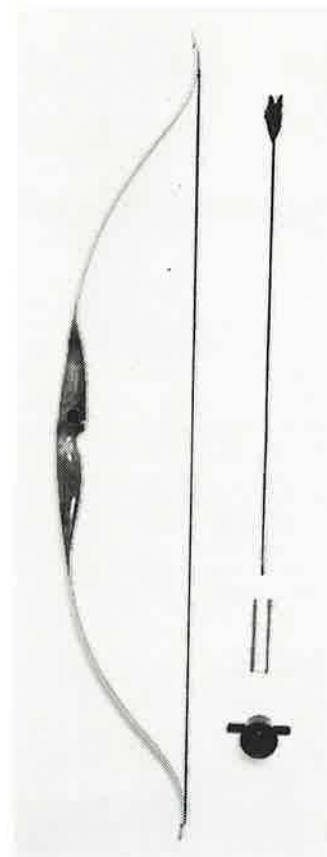

**Hunter Accessory Pouch No. 800V**—The perfect pouch for holding all necessary hunting accessories. Plenty of room for Bow string wax, Buck Lure, an extra string, etc. Made from expanded vinyl with zipper closure and a loop for hanging on belt.

**B-900—Bowtip Protector**—Holds bowstring in place while stringing bow. Does not affect bow action. 12 on display card.

# BLACK HAWK BOW FISHING EQUIPMENT

**Firebolt Fish Set—FFS**—Perfect out fit for the beginner or experienced bow fisherman. Everything needed for a successful fishing trip. Set includes powerful firebolt bow, bow reel, fiberglass fish arrow with detachable point and fish line.

**FRS**—An economical fish reel easily attached to your bow with tape, made of plastic comes equipped with heavy test fish line.

**FAA**—Famous Blackhawk solid Aluminum Fish Arrow, equipped with Blackhawk steel removable fish point; arrow heavy enough for deep penetration in water without planing. Arrow may bend—is easily straightened—will not break.

**FRL**—A large fishing reel easily attached to your bow by taping the metal straps of the reel to the bow. Reel is approximately 5" in diameter, made to sight and shoot thru the reel at the fish—almost impossible to miss. Reel is made of tough plastic with built-in clip to hold line prior to shooting.

**FSA**—Blackhawk economical bow fish set consists of small plastic fish reel with line, aluminum fish arrow.

**FSG**—Same as FSA except glass fish arrow instead of aluminum.

**FAG**—Blackhawk's new glass arrow, equipped with Blackhawk steel fish point. Durable, practically indestructible.

**FP1**—Blackhawk Fish Point. Made of the finest steel, head is in three (3) parts—steel ferrule, head and barb. head screws on to ferrule for easy removal of arrow after shooting fish. Ferrule available to fit shafts from 5/16" I.D. to 11/32" I.D. Head fits on all ferrules. Cadmium plated.

## BLACK HAWK POINTS

**Bear Razorheads® BRH**

A four-blade, razor-sharp broadhead acclaimed as the most lethal hunting head ever developed. Two precision-made blades combined. The main blade of mill-tempered spring steel is silver brazed to a one-piece steel ferrule and is long-bevel ground and honed to extreme sharpness. An easily replaceable, lightweight auxiliary blade of razor steel, completes the four edge broadhead.

**Sherwin Satellite**—A razor sharp 4-blade hunting point with hardened steel tip to eliminate point curling on bone. **SSC-3**

**HILBRE**—Razor sharp four-blade hunting point. **HIL**

**STBP**

**STFP**

**Blackhawk Standard Tapered Blunt or Field**—made of finest steel cadmium plated.

11/32 I.D.—3/8 O.D.  
Approx. 125 grain  
5/16 I.D.—11/21 O.D.  
Approx. 100 grain

**CFP  
PARALLEL  
FIELD POINT  
FOR 11/32" Shafts**

**CTP  
PARALLEL TAG POINT  
FOR 5/16 Shafts**

**AFP**

**ABA**

**Adapta Field Points & Adapta Broadhead Adapters**—Fit any make converta shafts. Field points weight approx. 125 grains.

**ASA**

**Adapta Shaft Inserts**—Inserts for converting glass or aluminum into adapta point arrows. Specify size and make of shaft when ordering.

**ATP**—Aluminum Target Points—long insert. Specify shaft size.

## BLACK HAWK ARMGUARDS

300-K

300-K—Leather guard with Arrabuk lining. Elastic band with hook. A quality child's armguard.

301

301—Semi narrow tapered design made of Kip leather.

310

310—Full length, wide, with one-inch stay for full protection.

320-C

320C—Hunting Armguard—Holds bulky hunting clothing out of the way for fast silent shooting. Flexes at elbow. Heavy duty camouflage vinyl laminated to an Autumn brown twill lining. Sueded cowhide lining. 1" wide full length spring steel stay. Adjustable elastic straps. 7" length.

325-C

325C—Camouflage Armguard—Holds bulky clothing out of the way for fast silent shooting. Heavy duty camouflage vinyl with a reinforced twill backing. Sueded leather lining. Steel center for rigidity and protection. Adjustable elastic straps. 13" length.

330

330—Ventilated Armguard—Full protection yet cool and comfortable. 3 steel stays to hold shape for years of use.

## BLACK HAWK BOW SIGHTS

SMHS—Blackhawk's side-mounted hunting sight—Mounted easily to any bow by 4 screws. Anodized black for no glare finish. Has 4 pins for 4 different sightings to cover all hunting conditions.

BHHS—Blackhawk's Economy 4 Pin Hunters Sight—Mounts to front or back of bow with screws or tape. Anodized black.

BHAP—Blackhawk's All-Purpose Sight—A hooded sight with double locking features found in more expensive sights. A great sight for target or field shooting.

## BLACK HAWK BOW CASES, SLING SHOT, FLETCHINGS

B701—Bow Case—Beautiful cotton flannel bow case. Leather trimmed with leather ties. 8" wide - lengths 66" and 72".

B-702—Bow Case—Deluxe bow case that will fit all tournament bows, made of weatherproof vinyl, flannel lined with inside pocket for accessories, 36" zipper, center leather handle grip.

B703—Compound Case—Deluxe case for compound bows. Made with the same construction as B702.

BHSS—Blackhawk School or Camp Sight—Designed to fit the budget of all schools or camps and yet allow young archers to learn with a quality sight.

BHB1—Blackhawk Economy Sight—For the archer who wants to try a sight before he goes to a better model. Also, excellent for schools or camps.

Should you or shouldn't you?? Many archers and hunters ask themselves this question year after year and never do try a sight. The facts are that the vast majority of archers who use sights are much more accurate than they were before using them. Mounting sights on a bow does not void the guarantee and furthermore, the job is very easily done. Yes, you can pay up to \$60 for a bow sight but most sights are in the \$6 to \$15 range and they never wear out. Try a bow sight, most archers like them.

10-S—Blackhawk Sling-Shot—A beautiful hunting sling-shot. Hits with the power of a rifle. An ideal, inexpensive weapon for hunting small game such as rabbits and squirrels, or to dispose of vermin. Packed and loaded with excitement and thrills, a must for added gameroom thrills. Sling-shot has reservoir in handle for storage of shot. Pellets released by twisting knob at bottom of handle.

Sling-shot Assembly—packed one on card fully assembled and loaded.

RA—Rubber Assembly—2 rubbers and pouch assembled. 12 per card.

SR—Sling-shot Rubbers—One pair per package—12 per card.

SP—Pellets—40 shot package. 12 per card.

Plastic Vanes—An absolute must for the serious hunter. Completely waterproof. Increases arrow speed and resists side winds. Packed in dozens.

Feathers—Top quality die-cut turkey feathers. Available in 5", 4", and 2½" lengths. In white and dyed white colors. Packed in dozens.

Pro Bo Adjustable Klicker with new self adhesive template. Now you may attach our adjustable klicker direct to the bow or use the self adhesive template to make installation quick and easy. Klicker tension may be adjusted by bending the blade. Packed one per display card, instructions included. #A100.

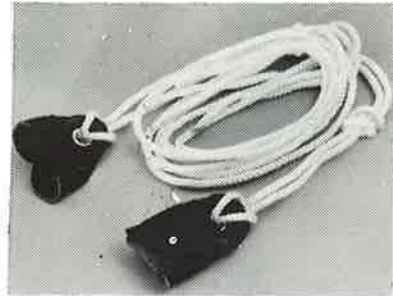

## BLACK HAWK ACCESSORIES FOR THE SERIOUS ARCHER

TS—Stabilizer—Fits 1/4" 20" insert. Reduces limb torque and puts weight forward to help improve stability and accuracy. 4" model for hunters or 24" model for target shooters. Specify.

Pro Bo Plunger, smooth, easy to adjust. Anodized to assure good working order even in bad weather. #A135.

# BLACK HAWK BOW QUIVERS, BOW STRINGERS, ARROW & STRING MAKING AIDS

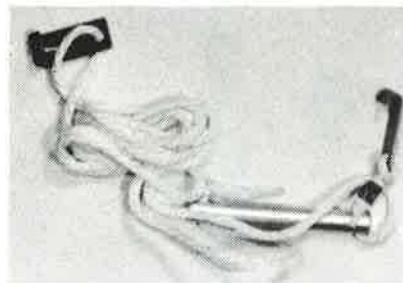

**Black Hawk Bowstringer**—Only sure way to string bow with no fear of limb damage. A must for all archers. A110

**MW—Black Hawk Fletching Cement**—Tops in fletching cement, unexcelled for glueing feathers and nocks to shafts and for the making of arrows (12 to carton). For aluminum, glass and wood.

**BSW—Blackhawk Bow String Wax**—Made from Carnuba and improved Beeswax. This is the finest wax on the market today. Blackhawk wax can also be used to dull the finish of your bow and is easily removed with a towel. Contains absolutely no paraffin as do the less expensive waxes.

**BHFC—Black Hawk Ferrule Cement**—Tops in hot melt adhesive. Unexcelled for application of points on arrows and for fishing tackle. 12 sticks to card.

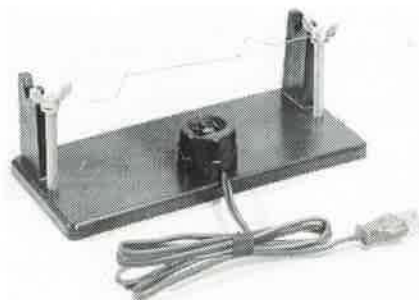

**CBS—Compound Bow Stringer**—Makes stringing any compound bow an easy job. A must for compound bow owners.

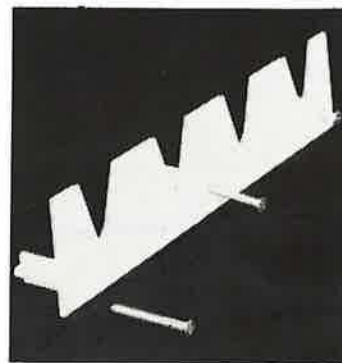

**EBQ—Economy Bow Quiver**, slips over limbs and holds 5 arrows securely to bow.

**BHBQ—Blackhawk Bow Quiver**—A hooded bow quiver that holds 6 arrows comfortably, quietly, and safely. Absolutely none finer anywhere at any price.

**BHB4—Black Hawk Feather Burner**. A burner designed for the home draftsman and for home repairs. Completely safe. Does not have transformer. In place of transformer, plug in an electric iron or other appliance in plug shown in base. This will reduce current to the burning wire. Will not work unless appliance is plugged in receptacle. Partially assembled with complete instruction sheet.

**BHBow Hanger**—Each bow rack will support four (4) bows, easily installed for home use. Packed in polyethylene clear bag containing instructions, rack and 3 wood screws.

**SS3—Black Hawk Server**. Finest server for serving bow strings on the market. Made of tough durable plastic. Easy to use, simple adjustments for positive serving. (Directions with each server.) Poly bagged.

**SS—Serving Spools**, extra large spools. Available in assorted colors.

**BHTT4—Famous Black Hawk Tapering Tool**. This tool acclaimed by all as the finest tapering tool on the market, designed to fit all points and nocks. Included are four bushings which have tapered sleeves that fit in a tapered hole of the main tool. Bushings are 1/4", 9/32", 5/16", and 11/32" and are slightly oversized to permit clearance of oversized shafts or painted shafts. Blade for cutting is a used injector-type razor blade, available at any drug store. (Directions and descriptive literature with each tool.) Complete tool containing six parts.

**GK—Kwikee Kover Broadhead Shield**—Molded from tough, super high impact Cyclocac thermo setting plastic. Featherweight. Attaches to spare arrow in any model KWIKII KWIVER.

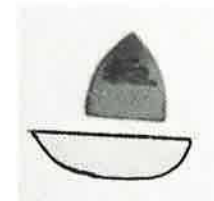

**GK-1—Kwikee Kwiver—Deluxe model only.**  
•Holds four arrows on any bow.  
•No screws, clamps or tape.  
•Weighs only 1 1/4" oz. per pair.

**WPA—Black Hawk Waterproofing (Aerosol)**—Spray dispenser waterproofing for arrows, for fisherman's flies. The finest arrow waterproofing available. Easy to use, economical—just press button, direct to feathers and a fine mist positively waterproofs your arrow. Packed 1 doz. cans to carton.

# BLACK HAWK ARROW RESTS & BOWSTRING ATTACHMENTS

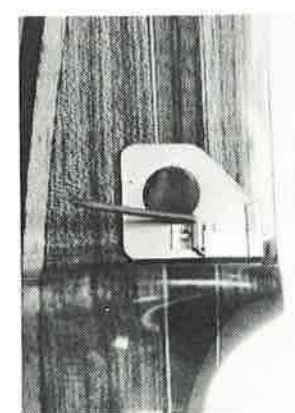

**RAG—Rug Arrow rest** with leather plate. This rest is standard equipment with most hunting bows. Assures quiet shot.

**HPR—Hoyt Pro Rest**—Interference-free springy plastic. Pressure-sensitive mount. Shelf springs away as arrow passes. Pressure plate controls spine action...positively clears vanes.

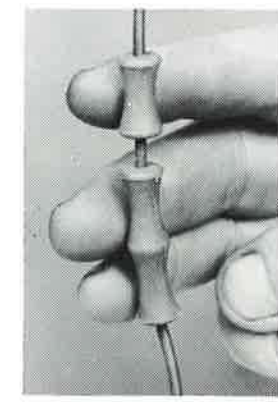

**HFE—Hoyt Flex Rest**—An excellent weatherproof rest for adding speed to arrow flight. Pressure sensitive mount.

**FR—Flip Rest**. Acclaimed to allow fastest arrow flight of any rest on the market today. Hole for plunger.

**NR-12—Nok Rites**—Nok Rite is a positive nocking point that allows shooting without a glove or tab. Easily installed, instructions enclosed.

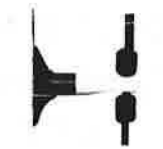

**NG—No Glove**—Another positive nocking point made from durable rubber. Finger positions are contoured for perfect fit.

**PSNP—Plastic String Nock Point**. Heat shrinks nock securely onto string. Gives archer correct nocking point instantly. Neat and efficient.

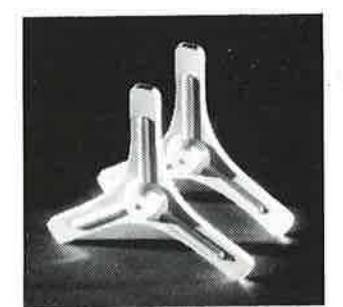

**NS Nok-Set**—A positive nocking point everytime. Anodized gold aluminum ring with rubber sleeve clamps onto bowstring and stays put. Envelope of 5.

**B800—Nok Loks**—A good nocking point made from 2 beads of rubber. The use of 2 or 3 sets allows archer to shoot without a glove. Easily installed.

**Super-B—Black Hawk Brush Buttons**—For brush proofing bow when stalking in woods and dampening string noise. Fit all bows. Packed 12 packs to easel. Comes in two sizes. Super and standard.

**GK-S—Kwikee Silencer Bowstring Attachment**—Dampens bowstring noise by deadening vibration nodes at points where they develop in the string. Deer will not flinch or "duck" at sound of string "twang." Will not locate hunter from sound. Packed 1 dozen pair in plastic bags on attractive counter display card.

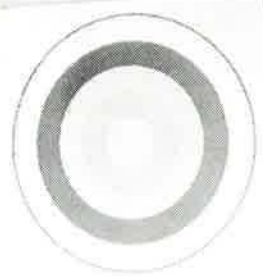

**PS-12—Peep Sight**. A rear sight, easily inserted in strands of bow string. Insert at eye level when at full draw. Increases accuracy. Improves score.

**KB-12—Kisser Button**. Used by tournament archers. Increases accuracy of anchor and adds points to score. Installs easily on string serving. Practically indestructible. Increases shooting consistency of hunters.

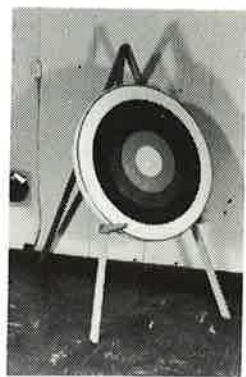

# BLACK HAWK TARGET & TARGET STANDS

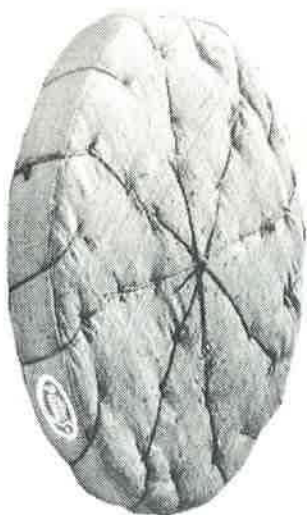

**BEC—Economy Target Mat**—Made of heavy corrugated paper, comes partially assembled, can be assembled by opening the box, pack tightly with rags, paper or straw, then tape box lid shut. An economical target mat that will give many hours of pleasure. Packed: 15 BEC to Bundle

**BEC-F—24" Target Mat**—Fully assembled economy Target Mat filled with Black Hawk Chemfoam Arrow Stopper; will stop arrows from bows to 75-lb. weight. Feather-light, easily carried.

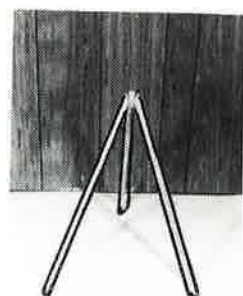

**b.w.s.—Wood Target Stand**—Black Hawk's Tripod Wood Stand for easy Target Mounting. Easily assembled.

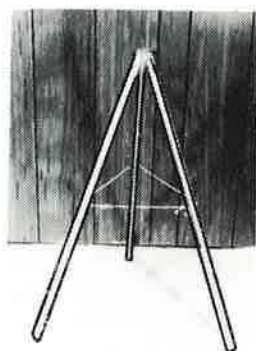

**48"**—this is a regulation size matt that is used in most school programs and all national and regional target competition. Backed with 16" matts, it is also used for indoor shooting. The Tough-A-Matt is excellent for casual and occasional practice use.

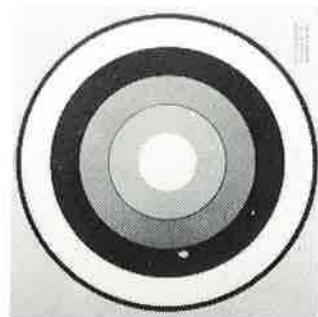

**CA Colored Animal**—Beautiful full color animal targets to stimulate hunting shots. Available in 4 sizes: 6", 12", and 24" faces.

24"

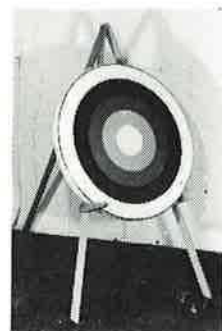

36"

**Standard 4-Color Faces**  
Sizes 14" through 48"  
Official Heavy Tag Paper

Code	Size
P-48	48"
P-36	36"
P-24	24"
P-16	16"
P-12	12"

The same construction as the 48" Tough-A-Matt is also available in 36", 24" and 16" matts.

Target skirts available for 24", 36" and 48" matts.

**PAA Indoor Round**—Official and unofficial 20" blue and white indoor PAA-ALOA-AIAA targets.

**STAP** — Black Hawk Target Staples. Wire staples in fastening target faces to straw mats (four to set).

# BLACK HAWK STRINGS & MERCHANDISER RACKS

## STRINGS

**SLBS**—Single loop polyester for solid fiberglass bows. 72" long.

**KGS12**—Single loop hemp string for solid fiberglass bows. 72" long.

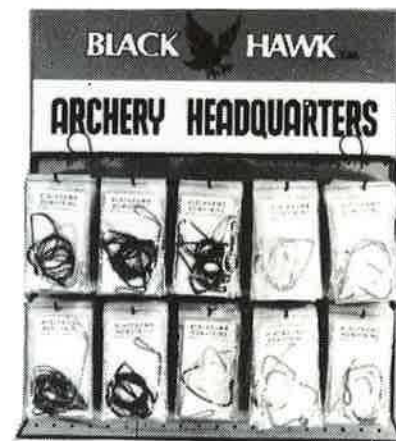

**DBS**—Dacron bowstring for all bows. Specify length and bow weight.

**WBS**—Woven braided string for all bows 50# and under.

**ESR**—String rack for displaying strings to customer. Keeps strings neat and in order.

**MDS**—String merchandiser. Contains rack and 90 assorted DBS dacron bow strings choose your own lengths or Blackhawk will give a good assortment.

Merchandiser racks #1 and #2—Blackhawk has changed the merchandise on the racks to help improve sales. All items are fast movers and used by virtually all archers. They will make a beautiful display and give every dealer a wide variety of accessories to keep his customers coming back to the dealer who has what he needs.

A successful bow hunt is a combination of many factors. One of the most important is to know the area where you hunt as well as possible. By doing this, you will naturally learn deer habits. Once you find a good area, stick to it. You may not see deer everyday but they will show up in time. Buck rubs indicate Bucks in the area. Buck scrapes are a sure sign that a buck will return to that spot periodically. Hunting off the ground in trees is one of the best methods of hunting. You are out of the deer's line of vision and your scent is usually high in the air. Camouflage clothing is a must for bow hunting and the camo paste makeup for exposed skin is also very helpful.

Proper equipment is naturally very important. The bow must not be too heavy to draw comfortably. Accuracy is more important than brute power. The new compound bows allow most archers to use a heavier bow than normal and propel the arrow at a greater velocity than the conventional bow of similar draw weight.

This gives a much flatter trajectory. Combine this with the fact that the Blackhawk compounds relax almost 50% making it easy to aim and you can understand why the archer can be much more accurate.

Many archers try to save a few dollars on necessary equipment and this can cause much aggravation later. An extra string, bowstring wax, string silencers, ferrule cement, fletching cement, and a good nocking point located in the proper position on the string, add up to only a few dollars, yet can save a lot of grief. Many items, while not considered necessities, can improve shooting or just make things a little nicer in the field. Most of these items will be with you many years and will pay for themselves over and over. It's nice to know that you are equipped properly.

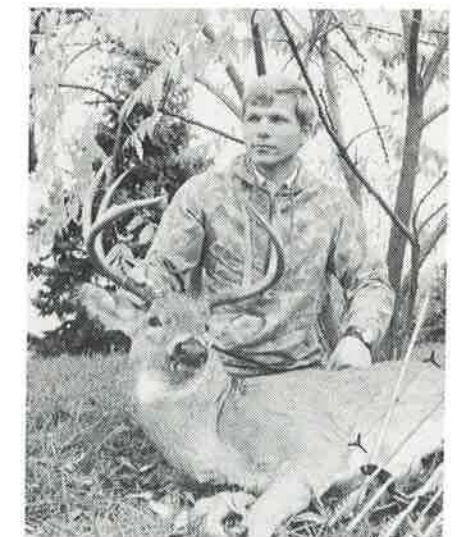

**JOHN KUBICKO**

John is a nationally known outdoor columnist and TV and Radio personality. He is currently on the Board of Directors of the Pennsylvania Outdoor Writers Association and is a Division Officer of the Pennsylvania Federation of Sportsmen's Club. His Gourmet Cooking demonstrations of Wild Game have been enjoyed by many thousands of people throughout the United States. He knows the logging roads and back trails of the Pennsylvania mountains as well as any man and as well as most deer, add this to his record as a Bow Hunter and we have a first-class Field Advisor for Archery Tackle.

**BOB KIRSCHNER**

A trophy whitetail deer bowman has taken 16 bucks with Black Hawk equipment in the past 18 years of Pennsylvania hunting. Working four years as a bow maker at Black Hawk, along with many years of reviewing the whitetail's habits, Bob compiled a book titled, "Everything I Know About Bucks With a Bow." The book established national recognition along with his success of bow hunting trophy black bear and record size bucks gave Bob the weight of authority. Many articles dealing with bow hunting techniques appear in Bowhunter, Archery World, Outdoor People and Sportsmen Journal authored by Bob Kirschner. Presently, Bob is District Representative of Penn Professional Bowhunters Association, holds membership to Pope and Young Club, Professional Bowhunters, Penn Outdoor Writers, and Fred Bear Sports Club.

**JACK NILES**

One of Blackhawk's group of field advisors. Jack shown here with his record mule deer. This is one of a number of trophy animals taken by Jack in his many years of hunting the North American continent. Jack is part of the famous Walley Taber outdoor program and spends more time hunting and fishing in one year than most men spend in a lifetime. If there is one man who can test archery equipment for reliability and performance, it's Jack. We are proud to have him on our team.

## A WORD ABOUT BLACK HAWK

### A word about Black Hawk!!

For 26 years, we at Cravotta Brothers have been striving to construct the best possible equipment at the lowest possible price while incorporating beauty and grace into all of our products. We have concentrated on the best new ideas and have tried to keep our lines as futuristic in design as possible. Some new ideas and changes in Black Hawk equipment for 1977 include three new compound bows, one economy priced, one mid-range, and one top of the line beauty. Finally, we have added three field advisors to field test all new items.

Some of our customers have been through our plant and after talking to them they seem to think it would be a good idea to tell a little about ourselves.

We are a family owned and operated business. Our only plant is in East McKeesport, Pa. Besides running the business, the Cravotta family all work in production so we know the effort that goes into each and every product. Every bow is hand-glued, hand-shaped, and the limbs are hand-tillered and straightened. The bows are finished with three coats of polyurethane paint and hand-rubbed between each coat. Our arrows are made in the same manner. Nock taper, point tapers, nocking and painting are all done one arrow at a time by hand.

In spite of our products being practically custom-made, Blackhawk remains competitively priced.

Your comments on how we can improve our line to better meet the archery industry needs are always welcome. Address your correspondence to Mr. James Cravotta, Pres. Cravotta Brothers, Inc., Third Street, East McKeesport, Pa. 15035

### VITAL INFORMATION TO BUYERS

**Prices:** All prices for products included in this catalog are subject to change without notice. Prices are based on existing tax conditions, and should additional federal and/or state taxes be levied, such taxes will be added to all invoices.

All prices are F.O.B.....East McKeesport, Pa. 15035.

**Orders:** All orders should be placed subject to the company's approval and acceptance. Any order on **open account** must be accompanied by references or good credit rating with Dun & Bradstreet or the Credit Bureau.

Please allow time to check Credit Rating.

**Service Charge:** A service charge of \$5.00 will be added to any drop shipment made from the plant less than \$50.00.

**Shipment:** All freight shipped COLLECT...allowance will be deducted from payment.

**Freight Rate/Freight Allowance:** Freight rates are based on lowest cost transportation, which normally is motor freight. When alternate method of shipment is requested, and orders are within boundaries of freight allowances, said allowances will be based on lowest cost of transportation with difference in freight costs to be paid by customers.

**There will be no freight allowance on any account that is overdue, and no freight allowance on target stands or mats.**

**Freight Allowance:** Full freight allowance on orders of \$750 or more.

Every Blackhawk bow is numbered and accompanied by a guarantee card which must be filled out and mailed by the purchaser within 10 days of date of purchase.

Your bow is guaranteed for one (1) year from date of purchase provided the bow shows no signs of misuse or improper handling. Serial number must be intact and bow should not be altered in any way. Altering does not include installation of sights. A Blackhawk owner should never attempt to repair a bow himself as this voids the guarantee. Any failure within the initial one-year guarantee period, Blackhawk will repair or replace at our option the defective bow. If replacement is necessary, it will be done as near as possible with a bow of the same model and weight.

After one year and continuing indefinitely, if a failure should occur, customer can purchase a bow of the same model or a model as close as possible for 40% below current dealer selling price. The current dealer selling price will be determined by Blackhawk taking the average selling price of local dealers.

**Returns:** No returns accepted unless prior authorization has been granted by Cravotta Brothers, Inc. All returns must be shipped freight prepaid, and goods must be returned in original container in good condition; damaged or marked container will not be accepted. When returns are acceptable, a 10% service charge of the value of the goods returned will be debited to your account for re-inventory and handling expenses.

**C.O.D.:** All C.O.D. orders require a 25% deposit with order.

**Terms:** 2% 10 days, Net 30 days.

**Cravotta Brothers, Inc. reserve the right to change specifications of any merchandise listed in this catalog without prior notice to the customer.**
