

September 2022 Member of the Month

Congratulations to M&D Electrical Solutions LLC of Pierceton for being chosen as Pierceton's September Business of the Month!

Mike and Dianna Sellers founded M&D Electrical Solutions in 2002, making this year their 20th Anniversary as a business! Through the years there have been many strides towards growth and changes. One of the newest changes has brought a couple of new employees into the company including their Daughter Dana Day back in 2021. Dana's husband Derrick has already been with the company going on 11 years in November. With the growth, the foundation of the company stays the same, to provide electrical and alternate energy solutions. The priority has always been to do whatever it takes to meet and exceed their customers' expectations. The utmost importance is showing respect and understanding as well as responding to customer concerns. Each and every time their team heads to a job site, they strive to provide the highest quality service at the best price.

M&D Electrical Solutions is a Generac Power Pro Elite+ Dealer. This means they are a full-service Generac Dealer for a new and established homes, along with commercial projects. They can provide sales, service, repair, maintenance and financing on Generac products to you. "Don't stress over losing power ever again. with a Generac whole home standby generator, you will never be left in the dark again." M&D Electrical Solutions also offers general electrical services. "We are your best choice for new home and business electrical needs. Whether you're at home or in business, electricity is the most common utility used... We provide informative choices for all electrical and lighting needs based on our experience and expertise." If you're looking for a reputable company to work with, M&D Electrical Solutions serves Warsaw, Syracuse, Culver, Rochester, Pierceton and surrounding areas!
