

# Safety Inspection Points of Inspection

## ELECTRICAL SYSTEM (120-Volt AC)

- Inspect the condition of the power cord and its connection ends
- Identify any damage or repair of the power cord
- Visually inspect the circuit breaker box wiring, breakers and grounding connections
- Inspect for heat discoloration to wiring and connections
- Verify separation all wiring types

## CHASIS TURN SIGNAL AND RUNNING LIGHTS (12-Volt DC)

- Activate and evaluate the operation of the DOT lights

## LIFE SAFETY ITEMS

- Perform LP gas timed leak test at cooktop burner
- Verify ground fault circuit interrupter (GFCI) circuits
- Verify wall receptacles and ground fault
- Perform hot skin test on the exterior
- Inspect emergency exit windows
- Inspect fire extinguisher
- Inspect smoke/fire detector
- Inspect carbon monoxide detector
- Inspect LP gas detector
- Inspect rubber grommet around LP gas line of the water heater (if equipped)

## PROPANE SYSTEM

- Inspect hoses and pressure regulators for damage and age deterioration
- Verify plastic cover has been installed over the regulator
- Inspect tank for rust or physical damage

## FURNACE (If installed)

- Inspect air intake and exhaust assemblies for blockages and insect infestation

## WATER HEATER (If equipped)

- Inspect burner assembly and gas exhaust system, check for blockages and insect infestation.

## CHASSIS AND UNDERCARRIAGE

- Visually inspect for rust or damage on the undercarriage

## STEERING

- Visually inspect for bent or damaged components

## RUNNING GEAR

- Note weight ratings of each axle
- Check frame, axles, springs, rims and other components for rust, oil stains and visible damage
- Document tire age and weight capacity
- Tire Pressure
- Tire tread condition
- Note valve extensions and pressure monitors

## WEIGHT LABELS AND DATA PLATES

- Identify and document vehicle identification Number
- Locate vehicle Frame number if possible
- Verify license plate information if applicable
- Document inspection sticker information-if applicable
- Note RVIA Seal number
- Note gross vehicle weight rating
