## Welcome to Our 2016 Newsletters

### Box Trucks Frames Fabricated with our TS22 Extrusion

Our tension frame based on the TS22 extrusion is chosen for the following reasons:

- 1) Impeccably stretched vinyl banners (See hereafter photos)
- 2) Easy to change printed graphics
- 3) Unbeatable cost-effectiveness.

You can appreciate the perfect stretch of the printed vinyl. Goodbye to ugly rivets, bars, etc. and Hello to easy graphic changes!

All our aluminum and PVC extrusions are 100% recyclable.

Our entire aluminum and PVC extrusion product line is designed and manufactured in the USA.  
How does it work?  
Have a look to our video...

Note that the up left corner was cut to follow the truck structure.

This is not a problem with our Banner stretching system. It works fine even for non-rectangular frames.

Demonstration of the Effectiveness of our Banner Stretching Frame.  
from a folder printed graphic to a nicely stretched banner for a mobile billboard.

### Let's talk cost:

(Material cost for two stretching frames - both sides of a box truck - \$495.00, including shipping)

***Or less than \$250.00 per frame delivered to your shop!***

***JUST ADD PRINTED GRAPHICS!***
