

You Have to Maslow Before You Can Bloom

Tuesday, June 11 8:30-3:30 \$100

Highland Community College Student Conference Center

Get back to basics as we focus on the most essential needs of students. Experience a poverty simulation to help you better understand some of the challenges our students and their families face. Learn about the impact trauma can have on learning. Then learn even more about research-based trauma-informed practices and ways we can support our most challenging students. This is foundational information for every adult that interacts with students. All school support staff, administrators, and personnel are welcome and encouraged to attend.

8:30 Poverty Simulation

11:30 Lunch

12:00 Trauma and the Impact on the Brain

1:00 Trauma-informed Strategies
