Abstract

In this review article the author argues that complete presentation of various Indian cultural methods can reduce the stress and related mental and physical illnesses like Stress anxiety, depression etc.. life is neither Possible to overcome safely. Indian cultural methods are increasing in Physical and mental health and reducing stress is an important stimulus of human growth and creativity as well an inevitable part of life.

Key words: Meditation, Mantra, Mudra and etc...

Introduction

Stress has reached epidemic proportions due to our fast-paced life-style and the consequent excessive demands on our bodies. It can affect your physical and mental health. Chronic stress can increase your risk for gastric ulcers, osteoporosis, and sexual dysfunction. It is linked to other physical illnesses including hypertension, heart disease, diabetes, asthma, and arthritis. Chronic stress can also impair the immune system, leading to an increase in infections and worsening of skin conditions such as eczema. Stress hormones have also been associated with post-traumatic stress disorder (PTSD), substance abuse, and mood disorders, as well as anxiety.

Management for Vedic Techniques

- Yoga
- Meditation

- Chanting Mantras

David Brian Wolf (1999) supported that the hypothesis ranging from .21 to .33. The author suggests that the maha mantra has potential for utilization in clinical areas similar to those where other interventions of Eastern origin have been successful, such as treatment of stress, depression, and addictions.

Michael Het al. (2007) discussed that the Mantra meditation is particularly focused upon. Anger management is also discussed, including the physical symptoms of anger, awareness of response patterns and power dynamics, and options for expressing anger.

Ajay Anil Gurjar and Siddharth A. Ladhake (2008) study that the mental stress of a person gets reduced while the mind reaches steadiness. As a final point, we have confirmed scientifically the accomplishments of OM chanting in reducing the stress from the human mind.

B.S. Jawharali & DR. Hema.C.R (2013) study that the stress management. Mantra repetition involves frequent repetition throughout the day and night. To experience maximal benefit, mantra should be repeated silently everyday: while walking, waiting or falling in asleep etc.. Meditation is often considered to be an alternative and complementary medicine which can be used to treat peoples with stress-related mental and physical disorders. In this paper we review some of the studies conducted on effectiveness of mantras as stress buster.

Jill Bormann (20013) about that the better results you'll notice. Build the mental muscle of your mind.

Anita Sharma & Reetudhwaj Singh (2014) study that the rested mind that the entire beneficial cycle starts. In Psychoanalytical language, meditation helps in conquering the neurotic tendencies and makes the mind peaceful and happy. Chanting of OM and Gayatri mantra stimulates the brain cells resulting in their activation and ultimately leading to better concentration.

Alpna Agarwal and Anshu Agarwal (2013) suggested that the the present study was made to study the effect of mantra chanting and gender on stress coping strategies.

Varun Malhotra et al. (2014) suggested that the Listening to music at work area reduces distractions, helps increase concentration and delays fatigue. It can be used to heal tinnitus, as an educational tool to develop children with special needs, Alzheimers disease, to improve motor skills in Parkinsonism and help alleviate pain after surgery.

Balaji P.V Deekshitulu(2015)revived that theMantra therapy can be control of stress, depression, anxiety, fear and promotion of mental health and happiness. Studies have shown that Mantras can have beneficial effects on the health of the body as well as positive results in Mental & Physical levels.

Chanting ---

- rhythmic speaking or singing
- It makes use of Deep breathing filling us with fresh air.
- Rhythmic tapping of tongue against certain points along the roof of our mouth.
- Sends signals to hypothalamus.
- It regulates chemical activity and secretion of ‘Feel Good’ brain neurotransmitters like ENDORPHINS.
- These are sent into all parts of the body.
- Being natural opiates, they
- LEAVE US HAPPY, RELAXED and RECHARGED with POSITIVITY

Breathing

- Breath is a kind of barometer of the subtle energies of body and mind.
- Deep and Relaxed Breathing: maintain an ‘empty lung’ position while exhaling and ‘full lung’ while inhaling.
- Kapalbattifor cleansing breath
- Anulom Vilomfor alternate nostril breathing

Rhythm

- When we repeat the mantra with a regular flow the benefit is many fold.
- Patterns of sound are inscribed in brain and evoke emotional and brain energy.
- In brain low frequency waves set in And

We relax.....

- When we inhale while chanting from the mooladhara chakra, the two flows through all the seven chakra And

PRANA/ Life flows in.....

Mantras:

- Is a brain stabilizer.
- Improves concentration and steadiness.
- It combines sound, breadth and rhythm.
- It is a pleasure.
- Perform it with positivity, cheerfulness, honesty.
- As a result of the sound and vibrations, different patterns of the mind re arrange themselves to become tranquil.
- Regular chanting helps in taking you to a spiritual journey where mind, body and soul become calm.
- The mantra carries power through your body and you get rejuvenated

How to do ?

- Sit down cross legged on the asana in the morning with back straight and upright neck and head.
- It is your personal appointment with god so keep everything aside.
- Sweep away your worries and thoughts.
- Concentrate, check mental chattering and relax.
- Produce positive energy by rubbing your hands.
- Open your third eye, smile

And

- CHANT-----

Conclusion

Our attentiveness and our concentration are pilfered by the events around us. Different challenges and impediments have been faced by the humans due to their occupational activities. Meditation is essential for the human beings to come out of the above troubles. OM is a spiritual mantra, important to obtain peace and calm. Consciousness has been improved by the repetition of OM mantra. In this work, we have confirmed the significance of OM chanting. The time-frequency analysis has been carried out using wavelet transforms for the divine sound OM. We have concluded that OM chanting affords steadiness in the mind scientifically. This provides calm and peace too to the stressed mind. The mental stress of a person gets reduced while the mind reaches steadiness. As a final point, we have confirmed scientifically the accomplishments of OM chanting in reducing the stress from the human mind.
