3/8 O.D. UNIGUARD® by Luvata copper alloy tubing to block formicary corrosion.

Aluminum end plates for rust reduction.

Base coil utilizes R-22 metering, R-410A options available.

Drains, suction and liquid lines are positioned to past specifications.

Pre-swaged suction and liquid lines, shipped with dry nitrogen holding charge.

Coils utilize a coated G-90 paint grip metal drain pan.

Coils carry a 5 year replacement warranty from date of installation.

Proudly manufactured and assembled in Lindale, Texas.

*Denotes models that have been modified (2 row to 3 row, 3 row to 4 row) to meet current production models and facilitate shipping. Proper internal refrigerant volumes have been maintained for corresponding model numbers.
