

CITY OF SUGAR LAND
Engineering Department

PUBLIC NOTICE

**COVINGTON WOODS-IVYMOUNT
DRAINAGE IMPROVEMENTS
CIP PROJECT - DR 1601**

On December 20th, 2016 the City Council awarded the construction contract to Allgoods Construction Company, Inc for the project above. Pre-construction activities may have already begun in your neighborhood and the contractor is expected to start in February 2017.

The construction work schedule is for 180 calendar days to complete the project. The work will be done in phases and sequenced in order to minimize the impact on your household. The City and Contractor have been in communication with the U.S. post office and Republic Waste to ensure you receive your mail and that your garbage is picked up as scheduled. The City will continue to update you regarding the progress of the project using different communication methods.

Now that the construction contract has been awarded, the real work begins. The City is soliciting your help and understanding during the construction period. We know that construction work of this magnitude may result in significant inconvenience at times, but the outcome will be worth the sacrifice. Construction updates and schedules will be maintained on the City's website on the engineering page at <http://www.sugarlandtx.gov/construction> Scroll down and click on the construction updates quick link on the left hand side.

We appreciate your help and should you have any questions, please do not hesitate to contact Idahosa Igbinoba, Project Manager, at 281-275-2780.

Respectfully,

A handwritten signature in cursive script, appearing to read "Idahosa".
