

TRITYPES, EnneaSite, are based on the idea that we each favor one of the styles within each of the Centers. So, besides your base Enneagram type (and the Center within which it resides), there'll be one type that resonates as your characteristic mode of operation within each of the other two Centers. The below 'archetypes' are suggestions intended to convey color, tone, visceral impressions. And are also meant to be applicable in any order...i.e.- the title given to 4-7-9 applies to 7-9-4 and 9-7-4, etc.
