The Moon Lake Improvement Club is a not-for-profit organization founded in 1962 for the purpose to better the sanitation, fishing, boating, and recreational conditions and opportunities associated with Moon Lake. Members work as a unified and cooperative partnership with various county, state, and special interest groups to showcase the best that Moon Lake has to offer.

We support a common vision and core values that enhance the sense of community for residents around the lake; a respect for visitors to the lake; and a safe and enjoyable environment for all recreational uses in and around the lake. We focus on things that we can influence in a positive manner and work through the efforts of volunteers to be creative, collaborative, and willing to work with a variety of partnerships in achieving our purpose. We believe Moon Lake is Coahoma County's greatest natural resource, and want to assure the lake is a clean and healthy place for future generations to enjoy.
