CRAVOTTA BROTHERS INC.

THIRD STREET • 824-6444 • EAST McKEESPORT, PA.

Fine Archery Equipment and Accessories have been the only products at Cravotta Brothers for 22 years. In fact, new products have been introduced every year for the tournament and field, expert and novice.

This year is no exception. Black Hawk has redesigned the Scorpion to a longer more stable 64" length. Realizing archery has become a very popular school sport, Black Hawk made improvements on the already popular Scorpion for carefree use as a school or camp bow. The Short Hornet again has been redesigned for even better performance and eye catching appeal. The Warrior has been stepped up to give serious tournament shooters a quality bow at a moderate price. The Avenger has been redesigned to be a smoother faster shooting bow. Two entirely new bows, the Mars and the Vulcan give the Jobber or Dealer two of the most beautiful hunting bows produced anywhere at any price. The Black Hawk Hornet Special Take Down has been a long time coming. We have watched with keen interest as others scrambled to get into the take-down market and then we decided which method would enable us to give the hunter an economical yet highly efficient take-down bow. The Chief and Chief Scout have been completely re-designed.

A new series of bulk packed hunting arrow, a complete line of the finest sights on the market and many new highly popular accessories, you will find at Cravotta's.

Your comments on how we can improve our line to better meet the archery industry needs are always welcome. Address your correspondence to Mr. James Cravotta, Pres. Cravotta Brothers Inc. Third Street, East McKeesport, Pa. 15035

VITAL INFORMATION TO BUYERS

Prices: All prices for products included in this catalog are subject to change without notice. Prices are based on existing tax conditions, and should additional federal and/or state taxes be levied, such taxes will be added to all invoices. All prices are F.O.B....East McKeesport, Pa. 15035

Orders: All orders should be placed subject to the company's approval and acceptance. Any order on **open account** must be accompanied by references or good credit rating with Dun & Bradstreet or the Credit Bureau.

Please allow time to check Credit Rating.

Service Charge: A service charge of \$2.50 will be added to any drop shipment made from the plant with a list value of less than \$50.00, or any shipment with a list value of less than \$20.00.

Shipment: All freight shipped COLLECT...allowance will be deducted from payment.

Freight Rate/Freight Allowance: Freight rates are based on lowest cost transportation, which normally is motor freight. When alternate method of shipment is requested, and orders are within boundaries of freight allowances, said allowances will be based on lowest cost of transportation with difference in freight costs to be paid by customers.

Freight Allowance: On orders of \$500 or more net; Full Freight Allowance...Motor Freight. On orders from \$250 to \$500 net; 50% Freight Allowance...Motor Freight. No Freight Allowance for orders under \$250.

[Black Hawk Bow Guarantee]

Every Black Hawk bow is numbered and accompanied by a guarantee card which must be filled out and mailed by the purchaser or his dealer within 10 days of date of purchase.

In keeping with our policy of trying to better serve our customers, Black Hawk has dropped its pro rated system of guarantee. Beginning January 1st, 1974, Black Hawk will repair or replace at our option any failure which would occur in a properly registered bow for a period of two years from date of purchase. The bow must show no signs of misuse or improper handling nor should the owner try to repair the bow himself. No adjustment will be made until the damaged bow is returned to our plant for inspection. The bow serial number must be intact. Replacement will be made as near as possible with a bow of the same model and weight. Dealers are not authorized to make adjustments but will gladly handle correspondence for you. We are adding to our guarantee a clause which should please Black Hawk owners, any Black Hawk bow that fails, regardless of age will enable a customer to purchase any bow in our line at 50% off current dealer selling price. Current dealer selling price will be determined by Black Hawk using the average of local dealers selling price. Again, any misuse or mishandling of bow will automatically void guarantee.

We, here, at Black Hawk feel that this is the best guarantee in the Archery industry today.

Returns: No returns accepted unless prior authorization has been granted by Cravotta Brothers, Inc. All returns must be shipped freight prepaid, and goods must be returned in original container in good condition; damaged or marked container will not be accepted. When returns are acceptable, a 10% service charge of the value of goods returned will be debited to your account for re-inventory and handling expenses.

C.O.D.: All C.O.D. orders require a 25% deposit with order.

TERMS: Terms are NET 30 days, except under our EXTENDED DATING TERMS as described.

EXTENDED DATING TERMS...will be allowed only to customers placing substantial order with salesman during the period January 1, through August 31, unless otherwise specified by customer. Payments will be computed from date of shipment, with no interest charge computed under the dating period.

ALL EXTENDED DATING TERMS are NET 120 days.

No **anticipation** or **cash discounts** will be allowed or honored under our EXTENDED DATING TERMS.

Cravotta Brothers, Inc. reserve the right to change specifications of any merchandise listed in this catalog without prior notice to the customer.

CHIEF—B2

The Black Hawk Chief has been completely redesigned. The contrasting multi-laminate strip incorporated with rich, dark exotic hardwoods gives the all new Chief a truly elegant look. Smoothness of draw has been retained but the cast has been improved tremendously on an already good shooting bow. Standard equipment includes vinyl bow case, flip rest, Pro Line plunger, stabilizer and one counter balance weight. Bow is drilled for five stabilizers or weights.

Specifications—bow length 68", 70" string length—62", 64". Fistmele—Approx. 8". Packed one bow per carton—Approx. shipping weight—6#.

CHIEF SCOUT—B3

Like the Chief, the Black Hawk Chief Scout has been redesigned to incorporate many features of the Chief. Rich American Walnut with contrasting Ebonwood laminations gives the Chief Scout a look any Archer would be proud to own. Bow is drilled for three stabilizers or weights. Standard Equipment includes stabilizer and flip rest. Optional equipment includes Pro be plunger, two other stabilizer bushing options.

Specifications—Bow length 68", 70". String length—62", 64". Fistmele—Approx. 8". Packed one bow per carton—Approx. shipping weight—6#.

WARRIOR—B4

The redesigned Warrior finally gives the serious tournament archer a quality bow at a moderate price. Two beautiful hardwoods contrasting with Ebonwood gives the Warrior a look of its' own. Standard equipment includes stabilizer, Hoyt Pro Rest and bow is drilled for three stabilizers or weights. Optional equipment includes Pro bo plunger and flip rest.

Specifications—Bow Length 66". String length—62". Fistmele Approx. 8". Packed one bow per carton—Approx shipping weight 5#.

BEE DELUXE—B5

The Bee Deluxe is a great all around bow for the discriminating archer. Handle is constructed of rich dark hardwoods and is drilled for a stabilizer. Back of handle laminated with glass for strength. A great bow for bow fishing. Comes with rug rest and plate.

Specification—Bow length 66". String Length—62". Fistmele 8". Approx shipping weight 2%#. Packed one bow per carton.

SHORT BEE—B6

The great Black Hawk Stand By. A fine mid-length bow used by beginners and experts alike. The stable limb design and dark hardwoods combined with a rich finish make this one of Black Hawks all time favorites. Comes equipped with rug rest and leather plate for quiet shooting.

Specifications—Bow length 60", 62". String length 56", 57". Fistmele 8". Approx shipping weight 2%#. Packed one bow per carton.

FIREBOLT—B7

A relatively new member of the family of Black Hawk bows. The name implies the performance. The handle section is of dark hardwoods with a true center shot. It has a working recurve and its compact length makes it ideal for hunting or bow fishing. A lot of bow for the money. Comes with rug rest and plate. Specifications—Bow length 56". String length 52". Approx Fistmele 7". Approx. shipping weight 5#. Packed two bows to a carton.

SCORPION—B8

The Scorpion has been redesigned to make it a better shooting bow and yet keep its' stableness and endurance. A full 64" to give the school, camp, or beginning archer unbelievable smoothness at this price. Comes with rug rest and plate.

Specifications—Bow length 64". String length 60". Fistmele Approx. 7". Approx. shipping weight 2%#. Packed two bow per carton.

HORNET SPECIAL T.D.—B9

Black Hawk has come up with a great new take down to compliment its' already fine line of quality bows. The handle is of laminated hard maple for carefree use, strength and durability. The holding system is of hardened steel studs and knurled thumb nuts to make setting up and taking down the bow a hand operation. The limb design along with a tapered maple core make the bow ultra fast yet smooth to draw. The flat black handle with camo limbs makes the bow ready to go hunting immediately. A great buy. Specifications—Bow length 58", 60". String length 54", 56". Approx. Fistmele 8". Packed one bow per carton. Shipping weight approx. 6#.

SHORT HORNET—B10

The Short Hornet has again gone through a change for the better. A slight increase in length gives a smoother draw but enables the Short Hornet to keep its' famous speed. Six contrasting woods make up one of the most beautiful risers on the market today. The all time favorite of the Black Hawk line is getting better with age.

Specifications—Bow length 58". String length 53". Approx. Fistmele 7". Approx. shipping weight 2½%#. Packed one bow per carton.

VULCAN—B11

The all new Vulcan has set a new standard in hunting bows. Unbelievable beauty and shooting ability gives the Vulcan a look and feel that every archer admires. The same woods that go into the Warrior are also used in the Vulcan. Nock overlays for added tip strength and a top finish all combines to add up to one of the finest values in Archery.

Specifications—Bow length 60". String length 56", 57". Approx. Fistmele 8". Shipping weight approx. 3#. Packed one bow per carton.

MARS—B12

The all new Mars is the Vulcan's shorter counter part. The same colorful handle, nock overlays and rich finish make this 52" Block Buster an eye-catching masterpiece. An ideal brush bow or tree bow, the Mars will compliment the Short Hornet and Vulcan to give Black Hawk beauty and performance through four different lengths of bows.

Specifications—Bow length 52". String length 48". Fistmele 7". Approx. shipping weight 2½%#. Packed one bow per carton.

AVENGER—B13

A beautiful compact hunting bow designed strictly for the hunter. The handle is made of dark hardwoods highlighted by maple laminations. Limbs have been redesigned for vastly improved performance.

Specifications—Bow length 52". String length 48". Approx. Fistmele 7". Approx. shipping weight 2½%#. Packed one bow per carton.

WASP—B14

The Black Hawk's child bow that none can match. A full working recurve with fiber glass, maple and formica laminated to form the limbs. This bow is hand crafted and hand tillered. A quality bow for a child.

Specifications—Bow length 54". String length 50". Approx. Fistmele 7". Approx. shipping weight 2½%#. Packed two bows per carton.

KIWI—B15

A solid fiber glass bow for beginners. The 60" bow comes in a weight range of 20#—45#. Packed five to a carton. Approx. shipping weight 6#.

BEETLE—B16

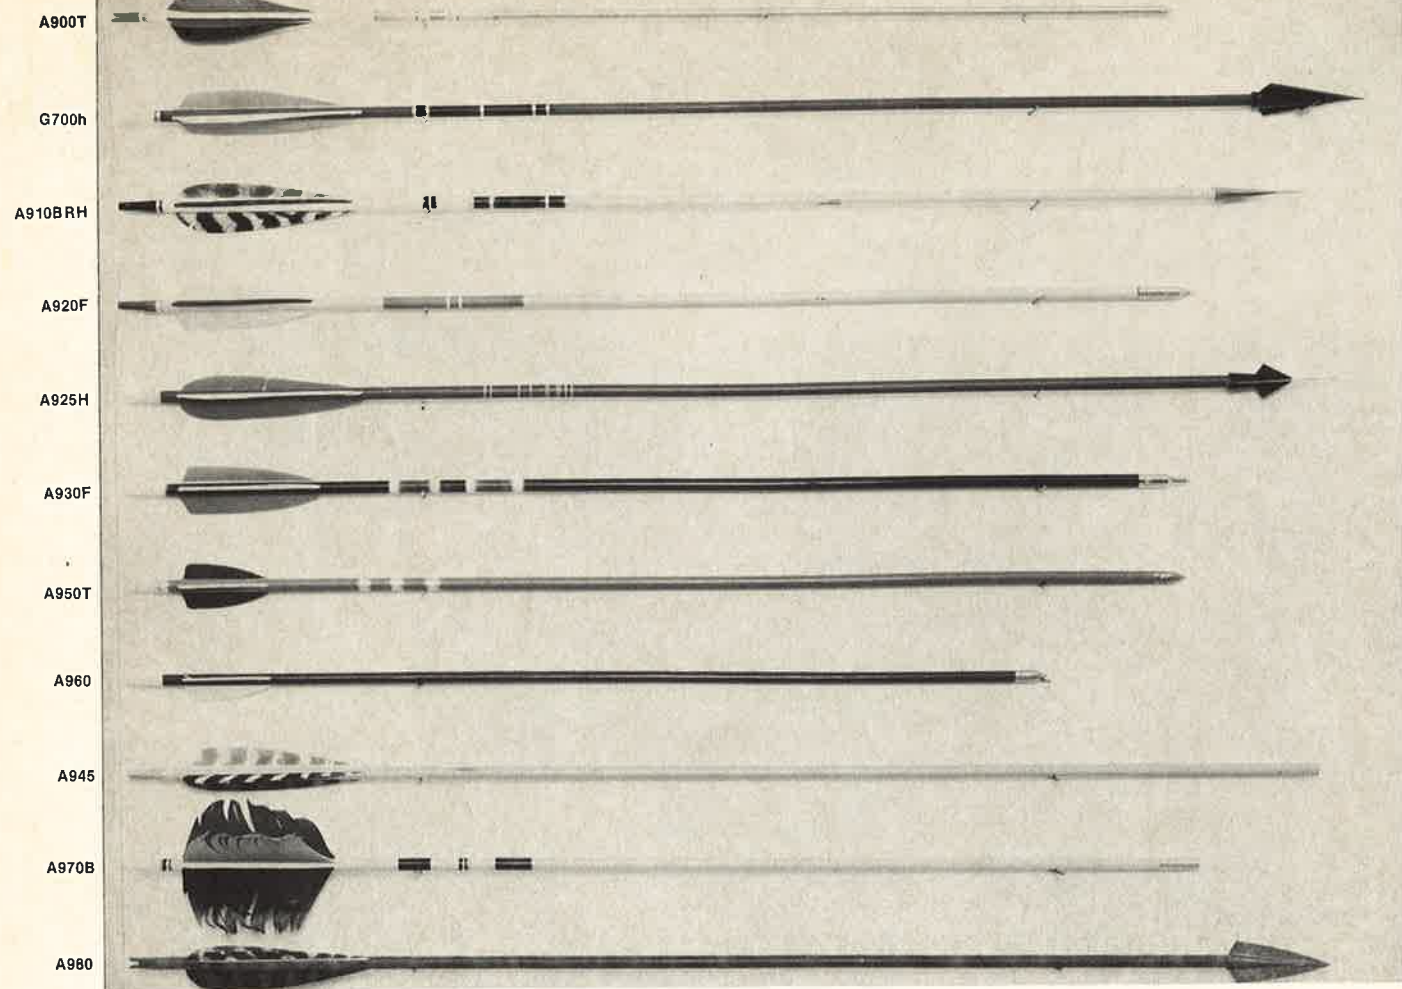

Another fiber glass bow at 56" gives Black Hawk another popular length. Weight range is 20#—45#.

MOSQUITO—B17

The 48" Mosquito is another selection of Black Hawk fiber glass bows from which to choose. Weight range from 20#—35#. Approx. shipping weight 6#. Packed five to a carton.

FLEA—B18

The 40" Flea is the beginning of the Black Hawk line. Weight is approx. 18# at 24" draw. Packed five to a carton. Approx. shipping weight 5#.

BULK PACK AND SPECIAL ARROWS

A930 SERIES

A quality field arrow packed in gross or half gross boxes. Uses 11/32 shafts. The A930's are fully painted and crested and spined for bows 40# or under. Length 28" unless otherwise specified and comes with 4" fletch.

A950 SERIES

Black Hawk's school arrow. A quality target arrow available in gross, 1/2 gross or dozen packs. Nock cock and crest are matched. Fully painted shaft with 11/32 diameter and 3" fletch. Lengths—assorted 26", 27", and 28" unless otherwise specified. For bows 40# or under.

A960 SERIES

Black Hawk's economy target arrow. Shafts are fully painted with 5/16 diameter. Available in gross or 1/2 gross boxes. Lengths are 24", 26", and 28" unless otherwise specified and fletching length is 2 1/2". For bows 35# or under.

A970 SERIES

Black Hawk's Flu Flu's for birds and small game. Made from #2 port orford cedar shafts fully painted and hand crested. Comes with 6 fletchings rather than one wrap around fletch as most other flu flu's do. Comes with 125 grain field or blunt point. Shaft size is 11/32". Available in dozen packs. State length when ordering.

A980 SERIES

An economy hunting arrow for plunking varmit or small game. Fully painted with 4" fletch and razor sharp 2 blade broadhead. Shaft size is a 30" length with an 11/32 diameter. Available in 1/2 gross pack.

A945 SERIES

A full length, fully painted #2 port orford cedar arrow. Fletching is 5" in length and shaft size is 11/32" in diameter. Spined in 5# increments. This is the perfect arrow for the craftsman who wants to choose his own point and arrow size.

All Black Hawk arrows have their points knurled or ferrule cemented on the shaft. Crimping the points is easier and cheaper but that's not our goal.

When ordering the following Black Hawk arrows be sure to specify length of arrow and weight of bow. They are spined in 5# increments and this is essential information.

A900 SERIES

This is Black Hawk's aluminum series of arrows. Advantages of aluminum arrows are speed of flight and straightness of shaft. All aluminum arrows are packed in one dozen packs and made with the ultimate in care and workmanship. Available with target, field, or hunting points. Options include professional type nock and plastic fletching and also the popular adapta points.

G700 SERIES

This is Black Hawk's glass series of arrows. Advantages of glass include resistance to bend, weather proof and very fast arrow flight. All glass arrows are packed in one dozen packs and available with target, field or hunting points. Options include professional type nock and plastic fletching and also the popular adapta point.

A910 SERIES

Our finest cedar arrows. Made from the finest precision ground, highly polished port orford cedar available. The A910's are fully painted then half dipped and hand crested to make one of the most beautiful arrows anywhere at any price. Available with target, field, or hunting points. Options include professional type nock and plastic fletching. Packed one dozen to a box.

A920 SERIES

A top grade cedar arrow. Made from a quality cedar shaft hand selected for straightness. Fully painted and hand crested. It is a beautiful arrow. Available with target, field, or hunting points. Options include professional type nock and plastic fletch. Packed one dozen to a box.

A925 SERIES

An economy priced arrow that is high in quality. Randomly selected from quality port orford cedar shafts, the A925's are fully painted and crested. Available with target, field, or hunting points. Options include professional type nock and plastic fletching. Packed one dozen to a box.

All the above arrows are made with 11/32 shafts.

Archery Fishing Accessories

For the utmost in thrills and excitement, try archery fishing during the seasons permitted in your area. Fish for all rough fish, and fish permitted by your own state laws. Black Hawk Scorpion, Firebolt and Bee bows make ideal bows to use, combine these with the following famous Black Hawk Bow Fishing accessories and you have the finest available.

FRS—An economical fish reel easily attached to your bow with tape, made of plastic, comes equipped with heavy test fish line.

FAA—Famous Black Hawk solid Aluminum Fish Arrow, equipped with Black Hawk steel removable fish point; arrow heavy enough for deep penetration in water without planing. Arrow may bend—is easily straightened—will not break.

FAG—Black Hawk new glass arrow, equipped with Black Hawk steel fish point. Durable, practically indestructible.

FSA—Black Hawk economical bow fish set consists of small plastic fish reel with line, aluminum fish arrow.

FSG—Same as FS4 expect glass fish arrow instead of aluminum.

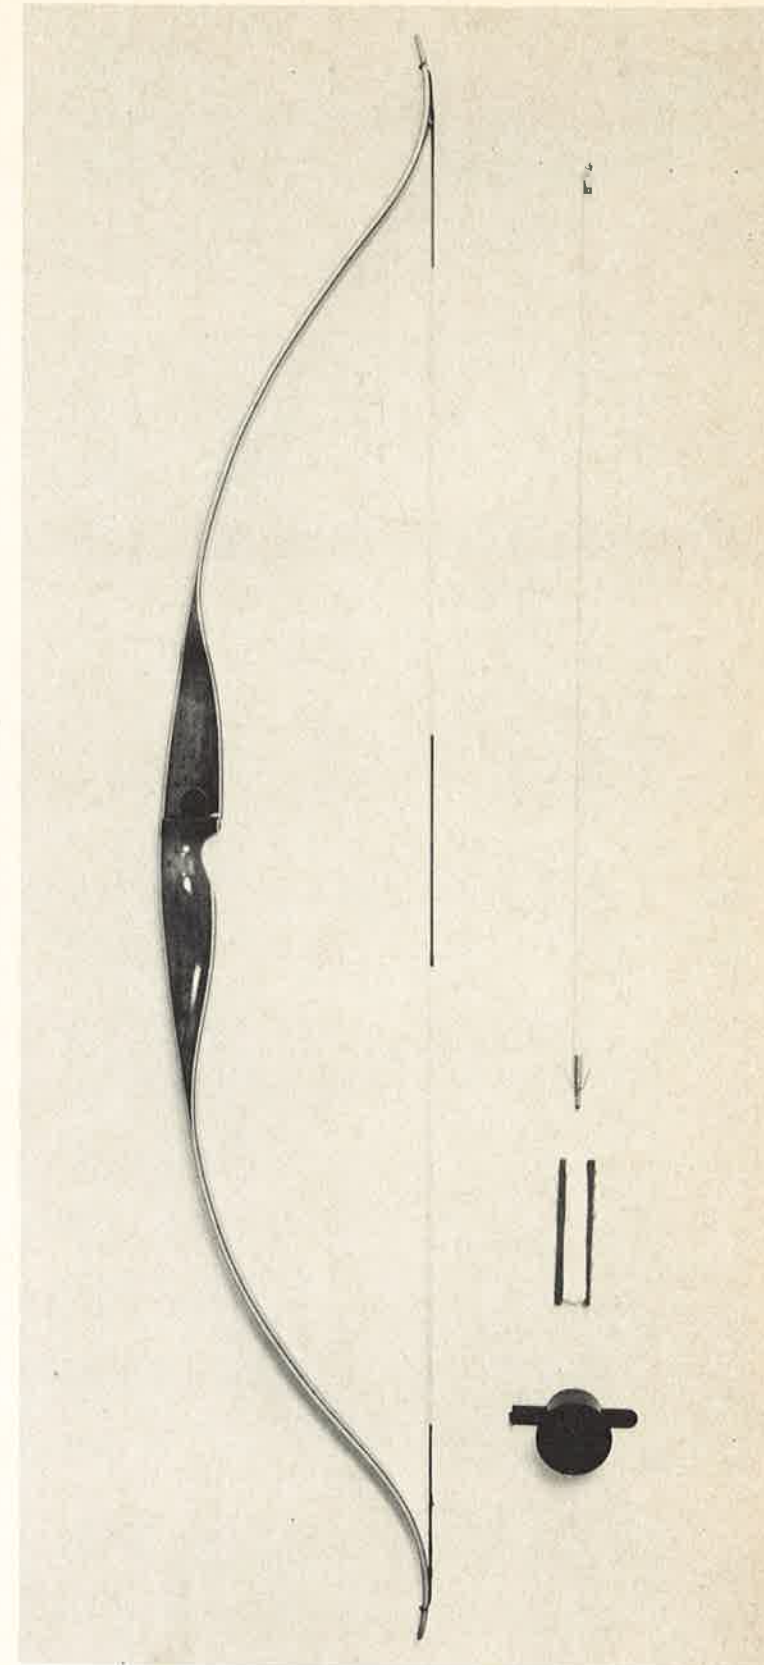

FP-1—Black Hawk Fish Point. Made of the finest steel, head is in three(3) parts—steel ferrule, head and barb. Head screws on to ferrule for easy removal of arrow after shooting fish. Ferrule available to fit shafts from 5/16" I.D. to 11/32" I.D. Head fits on all ferrules. Cadmium plated.

FRL—A large fishing reel easily attached to your bow by taping the metal straps of the reel to the bow. Reel is approximately 5" in diameter, made to sight and shoot thru the reel at the fish—almost impossible to miss. Reel is made of tough plastic with built-in clip to hold line prior to shooting.

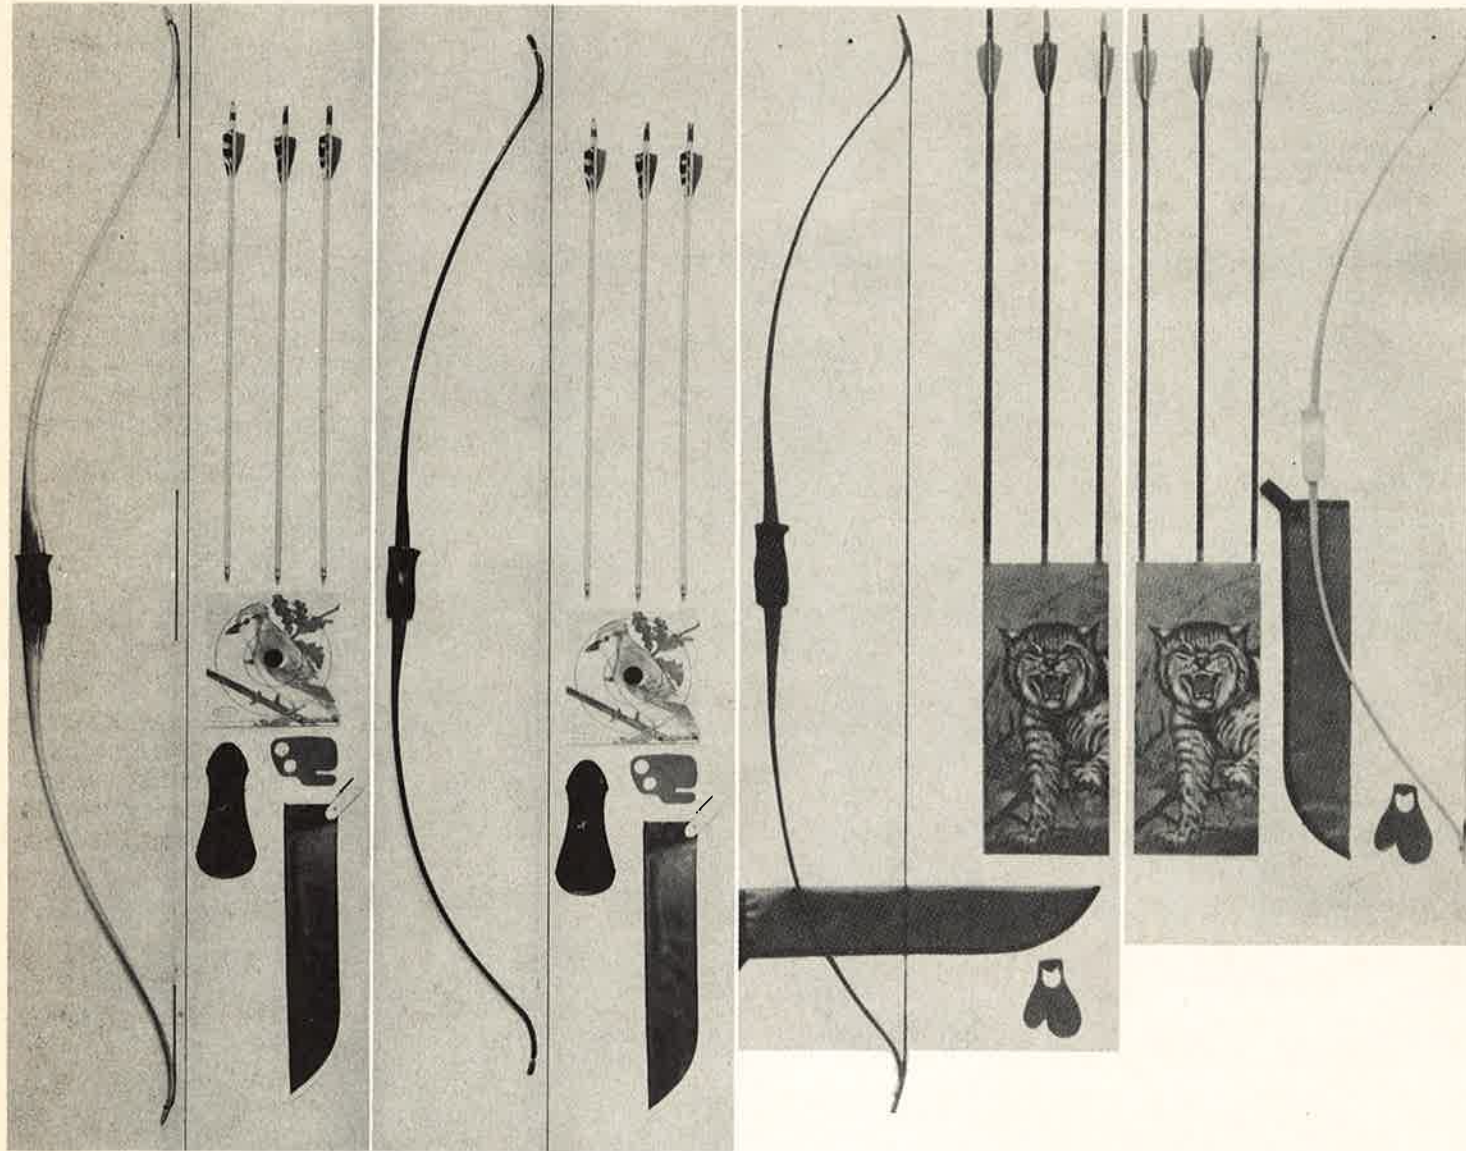

FFS Firebolt Fish Set.

The perfect outfit for the beginning or experienced bow fisherman. Everything needed for a successful fishing trip. Set includes powerful firebolt bow, bow reel, fiberglass fish arrow with detachable point and fish line.

Archery Sets
