“BEE” A CHAMPION FOR LITERACY!

The Carteret Literacy Council offers free confidential tutoring to any adult who wishes to improve their reading, English As A Second Language, and writing

Why we do what we do:

- It is estimated that one-fifth of all adults are functionally illiterate.
- The self-perpetuating cycle of illiteracy and poverty can be broken only if we reach more adults who need our help.
- There is a wall of embarrassment between the non-reading adult and the literate world. Our goal is to tear down that wall by showing that illiteracy is nobody's fault, has no relationship to intelligence, and can be overcome at any age.

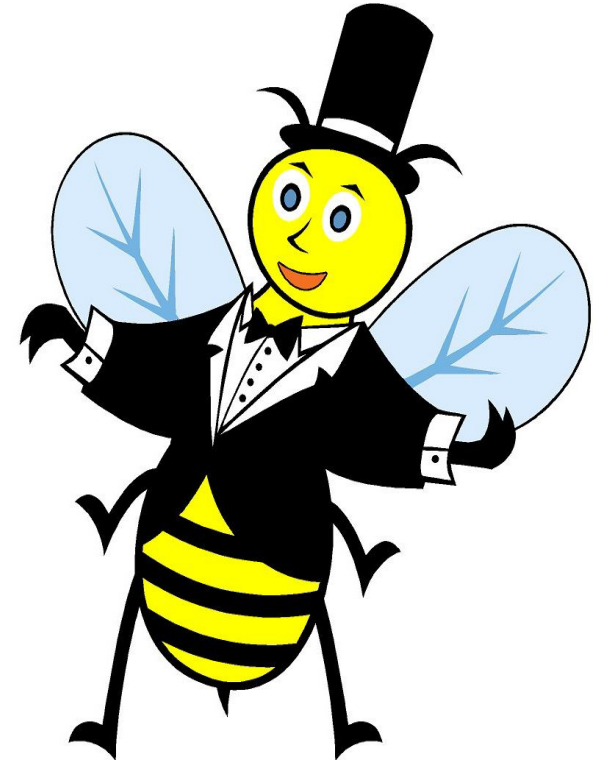

Illiteracy is more than an inconvenience:

- It limits employment and independence.
- It limits the ability to make informed decisions.
- Inability to read documents or prescriptions can have serious consequences.
