

ADVANCED INSPECTIONS

“THE NAME SAYS IT ALL”

Advanced Inspections is an ASHI Inspector

Why Choose an ASHI Inspector?

“Only an ASHI inspector can provide your customers with a professional, personalized inspection that combines more than 40 years of the highest technical standards, adherence to a strict code of ethics and the very best in customer service and education. We call this “The ASHI Experience”.

When you choose ASHI, you’ll be working with professional home inspectors who have passed the most rigorous technical examinations in effect today, including inspectors who are required to perform more than 250 professional inspections before they’re even allowed to call themselves “certified”. No other professional society can match the credentials of an ASHI inspector.

Help your customers obtain an inspection that is valuable, informative and educational. Recommend ASHI inspectors.” - homeinspector.org/

Educated. Tested. Verified. Certified.

What is ASHI?

- ASHI is the American Society of Home Inspectors. It is the oldest established organization for the home inspection industry.
- ASHI has established the STANDARDS OF PRACTICE and CODE OF ETHICS, which other national organizations and states (that require Licensing), have adopted (in full or partial) these standards of practice and code of ethics.
- ASHI members are required to obtain 20 hours of continuing education credits every year - unlike some of the other organizations.
